and treatment.*

# THE WORLD OF WATER

## WaterLine

WaterLine is a company in Rubiera (RE), part of the Solido Group. Thanks to a focus on technological innovation, the constant development of the range and a commercial policy aimed exclusively at professional water treatment and swimming pool operators, the company is now a major player in national and international markets. WaterLine has three divisions: Professional Water Treatment, Swimming Pools and Point of Use. The latter produces a complete line of microfiltration and ultrafiltration filters under the brand name Oceano, softeners for the Ho.re.Ca. market under the brand name Aroma, a series of reverse osmosis devices under the brand name "WateRO", and a wide range of dispensers under the brand name Bevco,

A complete offer for the Ho.re.Ca., vending, office and home markets.

The Professional Water Treatment division offers professionals a wide range of water treatment components and devices for both home and industrial applications. Filter cartridges, valves of the most established brands, pressure vessels, brine vats, RO membranes, reverse osmosis systems, ion exchange resins, filter media, softeners in pre-assembled kits.

## DRINKING WATER TREATMENT FILTERS

OCEANO filters are an advanced and unique filtration system for the improvement of drinking water. OCEANO uses, on the base of different models, several filtration technologies as by precoat membrane, carbon block, melt blown, GAC and ultrafiltration with hollow fiber.

	<i>Filters</i>	<b>ON36</b>	<b>ON35</b>	<b>ON10 ON12</b>	<b>ON25 ON27</b>	<b>ON16 ON18</b>

Thanks to different technologies, OCEANO filters can reduce taste and odours, chlorine, dirt, PFAS, improving home tap water taste. An extension of the Oceano line, called Arago, thanks to the use of materials such as carboxylic resin or cationic resin to reduce water hardness, is specifically dedicated to hot applications such as professional coffee machines and steam ovens.

# MICROFILTRATION

## ARAGO 100

Arago by OCEANO  
MADE IN ITALY

**Arago 100** Filter can be used for the preparation of hot beverages and improves the vaporization of hot beverages in ovens.

Carbonatic hardness reduction for hot beverage applications.

No pH change.

In-built mixing valve.

In-built flushing valve.

Prodotto conforme al DM25/2015 DM174/04

### Features

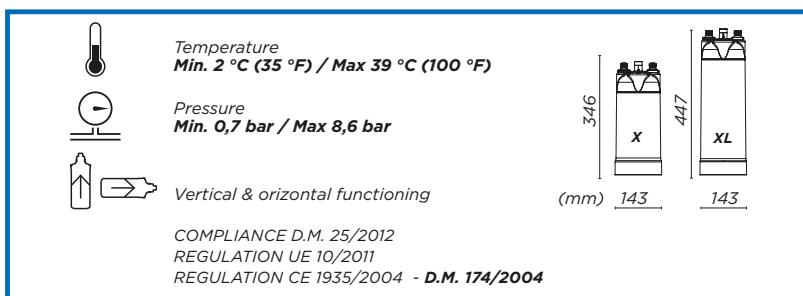

- Arago 100 adopts a filtration technology which uses special carboxylic resins able to reduce carbonate hardness, combined with a treatment with activated carbon.
- The integrated mix valve allows the adjustment of the percentage of water treated with resins, while all the water is always treated with activated carbon.
- In this way it is possible to regulate the reduction of the hardness of the water which can be modulated according to the needs of use and the characteristics of the input water.

### TECHNICAL DATA

Code	Description	Max Flow L/Min	Capacity L*	L 18°F	L 27°F	L 36°F
OA100X01 (X)	carbonatic hardness reduction	2,5	2.700	1.800	1.350	
OA100XL01 (XL)	carbonatic hardness reduction	3	4.000	2.700	2.000	
OAKit3/8	ARAGO IN-Out connection kit with VNR 3/8" male thread	3/8				
OAKit1/2	ARAGO IN-Out connection kit with VNR 1/2" male thread	1/2				

\* Capacities when used discontinuously max 0,5 l every 5 minutes. Mix Pos. 2.

Capacity and performance of the device depends highly on inlet water quality

## ARAGO 110

Arago OCEANO  
MADE IN ITALY

**Arago 110** Filters are ideal for the preparation of hot drinks and ensure optimal protection to the heating elements of professional machines.

Softening for hot and steam beverage applications.

No pH change.

High capacity.

In-built mixing valve.

Prodotto conforme al DM25/2015 DM174/04

### Features

- Disposable cartridges composed of mix of a cationic resins for softening combined with silver activated carbon.
- The cartridges allow to reduce the total hardness of the incoming water, preventing the formation of limescale deposits.
- The resins used, certified for the treatment of drinking water, have a high exchange capacity and do not alter the pH of the treated water

- The mix integrated in the head allows to adjust the percentage of water treated with resins, while all the water is always treated with activated carbon.
- This results in an increase in the autonomy of the appliance and a controlled and not excessive reduction in the hardness of the water which can be modulated on the needs of use and the characteristics of the incoming water.

1.0

**ARAGO 120**

**Arago by OCEANO**  
MADE IN ITALY

**Arago 120** Filter is suitable for demineralising water intended for technical uses.

Ideal for the electronics, galvanic and chemical industry.

Production of demineralized water for technological use.

Sediment pre-filtration.

Mixed bed resin technology.

Product compliant with DM25/2015 DM174/04

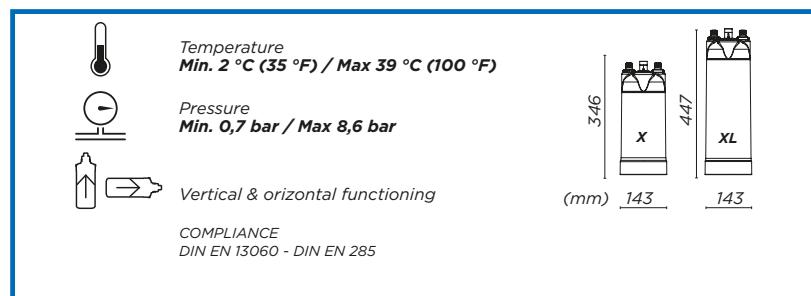

#### Features

- Disposable filter cartridge for the production of demineralized water.
- The special mixed bed resin removes all the salts dissolved in the inlet water.
- Demineralized water is ideal for laboratories for the correct preparation of reagents or as a rinse to clean equipment without leaving residue, as well as for the demineralization of finishing water coming from reverse osmosis or ion exchange systems and for use in steam ovens.

#### TECHNICAL DATA

Code	Description	Max Flow L/Min	Capacity L*

\* Capacity and performance of the device depends highly on inlet water quality (typical values at 400 µs/cm)

## ARAGO 130

Arago by OCEANO  
MADE IN ITALY

The **Arago 130** filter was designed specifically for the treatment of beverage preparation water. It allows you to eliminate chlorine odors and unpleasant tastes from your water.

Prefiltration for appliance and system.

Bacteriostatic action.

Low pressure drop.

Reduces chlorine.

Granular activated carbon (GAC) removes bad taste and odours.

Product compliant with DM25/2015 DM174/04

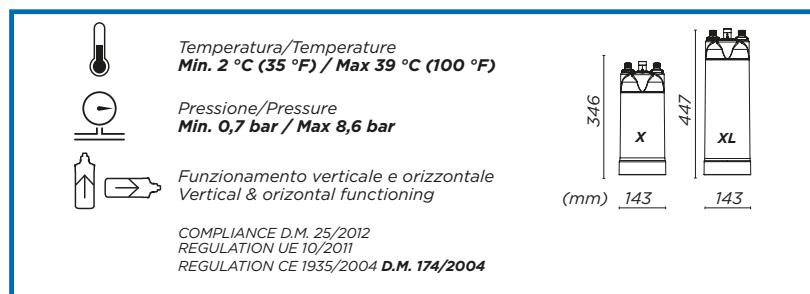

### Features

- Disposable cartridges consisting of a filter medium of granular activated carbon (GAC) treated with silver with bacteriostatic effect.
- The filter also has a nominal filtration degree for sediments of 50 µm and can therefore be used as a prefiltration stage.

### DATI TECNICI/TECHNICAL DATA

Code	Description	Max Flow L/Min	Capacity L*
OA130X00 (X)	Prefiltration	10	76.000

# OCEANO FILTERS

## OK03 / MINI FILTER

**OCEANO**  
MADE IN ITALY

Tiny filter with tilting head.

Shut-off valve inside.

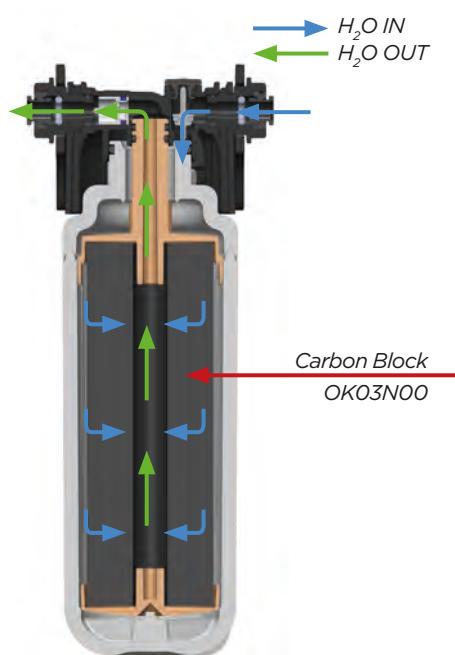

Removes bad taste and odours.

Head detail

MINI

Product compliant with  
DM25/2015 - DM174/04

### Features

- Thanks to its very small size, it is ideal for installations in confined spaces such as internal compartments of Water dispensers.
- It consists of a filter head with tilting bracket (complete with non-return valve at the outlet and automatic shut-off flow closure system) and a disposable cartridge with bayonet connection.
- The OK03 filter technology allows the dechlorination and sediment reduction of drinking water by means of a 0,5µm carbon Block element treated with silver ions for bacteriostatic action.
- IN/OUT connections with 6 mm hose quick couplings, 8 mm on request.

## ON36 / ORECOAT AG 0.5μm

OCEANO  
MADE IN ITALY

High filtration surface for turbid water or with chlorine.

Removes bad taste and odours.

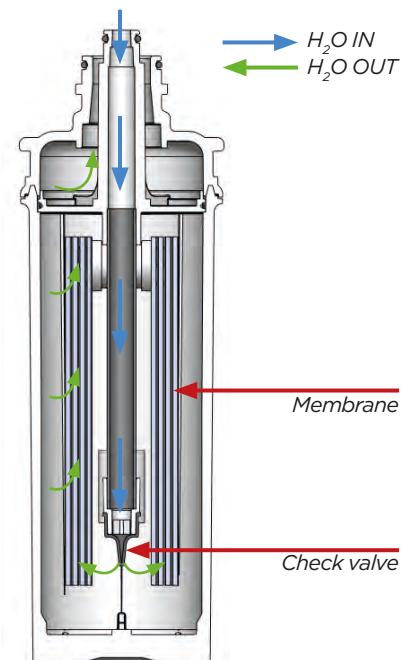

Ideal for home and Ho.Re.Ca.

Product tested and certified in compliance with NSF/ANSI 42 with specific tests on flow rate, filtration efficiency (Particulate Class I, II Reduction) and chlorine retention (Chlorine Reduction)

Product compliant with  
DM25/2015 - DM174/04

### Features

- Disposable cartridge with bayonet quick coupling that uses Precoat Ag 0,5μm technology.
- Thanks to the high surface membrane and powdered activated carbon, it removes turbidity from the water (nominal filtration 0,5μm) chlorine, taste and smells.
- The bacteriostatic element (granular activated carbon treated with silver) reduces microbial growth.

## ON10 ON12 / SINTERED CARBON BLOCK AG 0.3µm

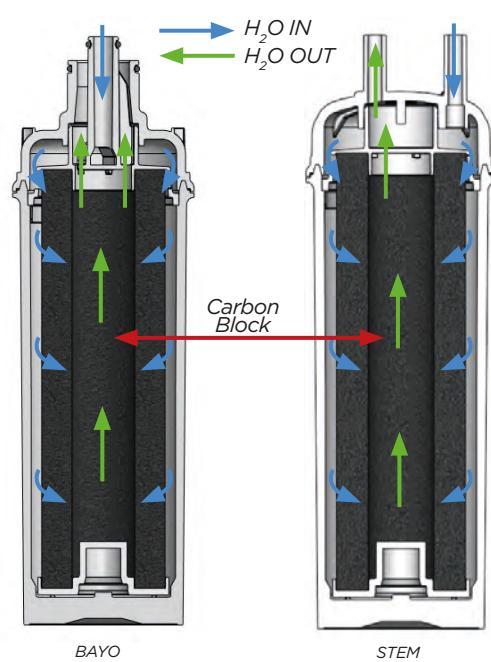

Optimal grade of microfiltration treatment  
for drinking water.

Removes bad taste and odours.

Reduces chlorine.

Product compliant with  
DM25/2015 DM174/04  
ACS and WRAS

### Features

- Disposable cartridges with special 0.3µm sintered Carbon Block technology.
- They remove turbidity (nominal filtration degree 0.3µm), chlorine, taste and odors from the water.
- The silver molecules present in the filter structure have a bacteriostatic action.

- The cartridges reduce organic substances and heavy metals.
- The Bayo version has a quick bayonet connection, while the Stem version has IN/OUT male connections with 10 mm tube.

## ON25 ON27 | SINTERED CARBON BLOCK AG 0.5µm + UF MEMBRANES

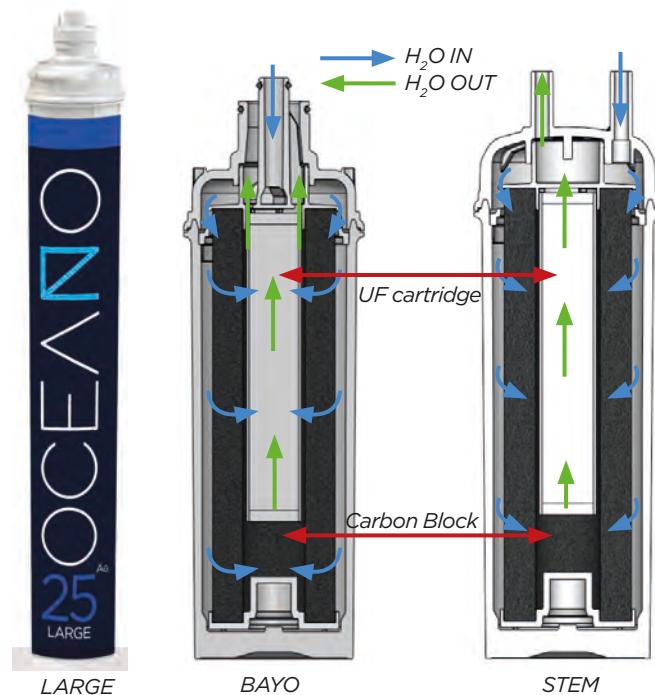

Ultrafiltration antibacterial for drinking water.

Removes bad taste and odours.

Reduces chlorine.

Product compliant with DM25/2015  
DM174/04 - NSF/ANSI 42 - ACS

### Features

- Disposable cartridges that adopt a dual filtration technology: 0,5µm Ag sintered Carbon Block combined with an UltraFiltration hollow fiber membrane < 0,1µm.
- The Carbon Block element ensures dechlorination and clarification of the water, removing suspended substances, chlorine, tastes and odors.

- The subsequent UF filter element allows an effective reduction of any bacteria.
- The Bayo version is equipped with a bayonet quick coupling, while the Stem version has IN/OUT male connections with 10 mm tube.

## ON30 ON31 / SEDIMENT PP 0.5μm

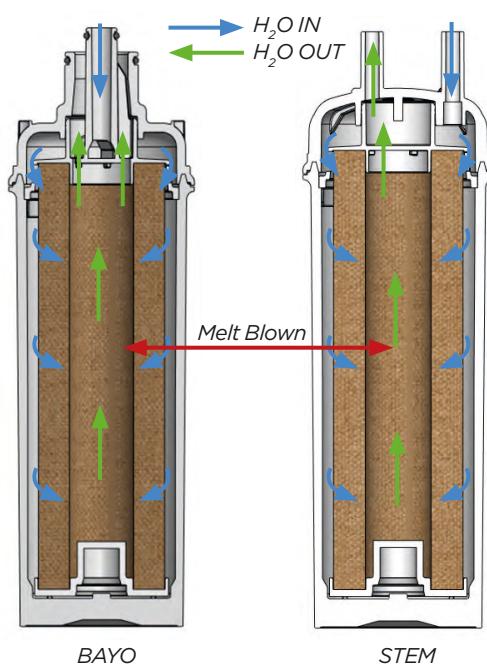

Prefiltration for appliance and system.

Reduces chlorine.

Low pressure drop.

Product compliant with DM25/2015  
DM174/04 - ACS

### Features

- Disposable cartridges that adopt the filtration technology of Melt Blown polypropylene.
- The cartridges have a nominal filtration degree of 5μm and allow the removal of suspended sediments from the water.

- They are mainly suitable as protection prefilters for domestic and industrial users, but are often installed before other filters with a higher degree of filtration.
- The Bayo version has a quick bayonet connection, while the Stem version has IN/OUT male connections with 10 mm tube.

## ON17 / SINTERED CARBON BLOCK AG 0.5µm +SCALE INHIBITOR

Optimal grade of microfiltration treatment for drinking water.

Removes bad taste and odours.

Avoid scaling and corrosion.

Product compliant with  
DM25/2015 - DM174/04

### Features

- Disposable cartridges with special 0,5µm sintered Carbon Block technology with polyphosphate spheres.
- It removes turbidity (nominal filtration degree 0,5µm), chlorine, taste and odors from the water.
- The silver molecules present in the filter structure have a bacteriostatic action.

- The cartridge reduces organic substances and heavy metals, avoiding scaling and corrosion.
- The Bayo version has a quick bayonet connection, while the Stem version has IN/OUT male connections with 10 mm tube.

## ON34 / PRECOAT AG 0.5µm +SCALE INHIBITOR

OCEANO  
MADE IN ITALY

High filtration surface for turbid water or with chlorine.

Removes bad taste and odours.

Ideal for home and Ho.Re.Ca.

Product tested and certified in compliance with NSF/ANSI 42 with specific tests on flow rate, filtration efficiency (Particulate Class I, II Reduction) and chlorine retention (Chlorine Reduction)

Product compliant with DM25/2015 - DM174/04

SMALL

MEDIUM

LARGE

BAYO

### Features

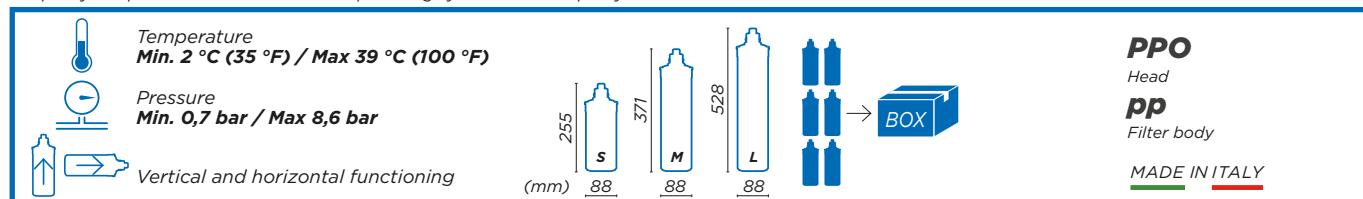

- Disposable cartridges that uses a consolidated technology, thanks to the high surface membrane and the activated carbon powder, removes from the water substances larger than 0,5µm from the water, smells, chlorine and derivatives, organic substances and metal compounds.
- Furthermore, the use of particular polyphosphate spheres suitable for use in foodstuffs, prevent the precipitation of calcium and magnesium carbonates, the main causes of calcareous deposits

High filtration surface for turbid water or with chlorine.

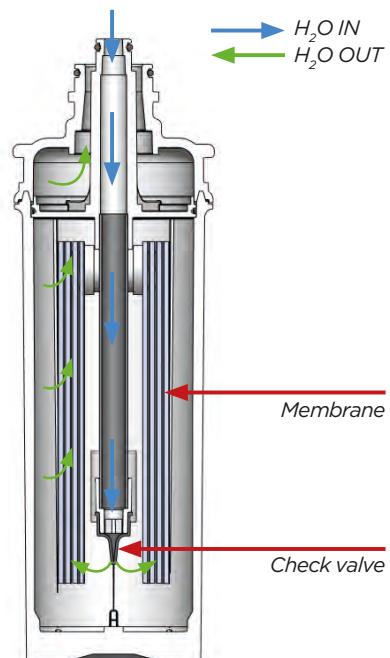

Removes bad taste and odours.

Reduced diameter of Ø80 mm.

Product compliant with  
DM25/2015 - DM174/04

SMALL

#### Features

- Disposable cartridge with bayonet quick coupling that uses Precoat Ag 0,5μm technology.
- Thanks to the high surface membrane and powdered activated carbon, it removes turbidity from the water (nominal filtration 0,5μm) chlorine, taste and smells.

- The bacteriostatic element (granular activated carbon treated with silver) reduces microbial growth.
- The reduced diameter Ø80 mm makes it suitable for installation in small spaces.

## ON45 ON47 / GAC AG FILTER

Low pressure drop.

Bacteriostatic action.

Granular activated carbon (GAC)

Reduces chlorine

Product compliant with  
DM174/04

### Features

- Disposable cartridges consisting of a filter medium of granular activated carbon (GAC) treated with silver with bacteriostatic effect.
- The filter also has a nominal filtration degree for sediments of 50µm and can therefore be used as a prefiltration stage.
- The Bayo version has a quick bayonet connection, while the Stem version has IN/OUT male connections with 10 mm tube.

## ON40 ON42 / ANTI NITRATES

Selective nitrate removal.

Certified macroporous resin.

Low pressure drop.

Product compliant with DM174/04

### Features

- Disposable cartridges made of special ion exchange resins for the reduction of nitrates.
- The resin used allows excellent kinetic exchange, high resistance to physical, thermal and osmotic shocks as well as to organic fouling.

- Filter element to retain any suspended particles.
- The Bayo version has a quick bayonet connection, while the Stem version has IN/OUT male connections with 10 mm tube.

## ON46 PFAS REMOVAL

OCEANO  
MADE IN ITALY

Filtration with perfluoroalkyl removal (PFAS).

Removes bad taste and odours.

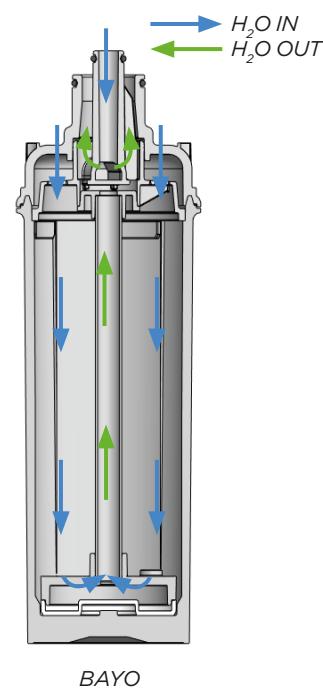

Reduces chlorine.

Product compliant with DM174/04

MEDIUM

LARGE

BAYO

### Features

- Disposable cartridge, a column of specific resins for the treatment of PFAS
- The resins used, certified for the treatment of drinking water, have a high exchange capacity and do not alter the pH of the treated water.
- In addition to the resins, the cartridge is complete with granular carbon capable of removing residual chlorine, odors, flavors as well as any suspended particles.

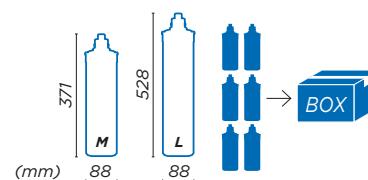

- We recommend replacing the cartridge at the end of its nominal autonomy, or if the flow is too slow.
- The cartridge must however be replaced every 6 months after its installation.
- To properly activate the cartridge, open the inlet valve and dispense for at least five minutes.

### ON46 PFAS BAYO

## ON80 / MINERALIZATION FILTER

Water remineralization with calcium and magnesium.

Increases pH.

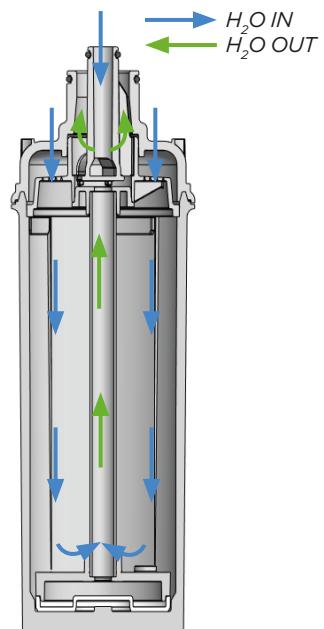

Improve water taste.

Osmosis post filter.

Product compliant with DM174/04

MEDIUM

BAYO

### Features

- Disposable cartridge with a quick bayonet connection consisting of Calcium and Magnesium mineral granules combined with a filtering media for the retention of small suspended particles present in the water.
- The system allows the reduction of water acidity by neutralizing the dissolved CO<sub>2</sub> and transforming it into calcium and magnesium salts.

- The filter is mainly designed as a post-filter for reverse osmosis equipment.

## ON455 OK57 / OMEGA PLUS - STRONG CATION

OCEANO  
MADE IN ITALY

Softening for hot and steam applications.

No pH change.

High capacity.

Product compliant with DM174/04

MEDIUM

EXTRA LARGE

### Features

- Disposable cartridges composed of a column of strong cationic resins for softening.
- The cartridges allow to reduce the total hardness of the incoming water by preventing the formation of scaling deposits.
- The resins used, certified for the treatment of drinking water, have a high exchange capacity and do not alter the pH of the treated water.

- In addition to the resins, the OK57 cartridge has a 5µm carbon block element suitable to remove residual chlorine, odors, taste as well as any suspended particles larger than 5µm.

# ULTRAFILTRATION

## ULTRAFILTRATION SSU

### Features

- Membrane material: polysulfone
- Max inlet pressure: 6 bar
- Max inlet temperature: 50°C
- Connection: Thread 1/2"

Code	Description	Internal filtering surface m <sup>2</sup>	Flow l/h	€
OI023052	Single stage ultrafiltration M03501 SSU 28	2,8	18,0	

## UF LENGTH 10"

### Features

- Nominal Filtration: 0,08 µm
- Maximum flow: 4 l/min
- Maximum pressure: 4 bar
- Maximum temperature: 40° C
- Service life: 1500 l
- Inlet/Outlet: 1/4"
- Size: Ø 2" x 10" L

Code	Description	€
OI023044	Inline ultrafiltration system stem connection 1/4"	

## CAR9000X

### Features

- Size: 2" 1/2 x12"
- 1/4 shank In/Out connections
- Capacity: 3,8 l/min = 3 bar
- Pressure 0,7-5 bar
- Life: 2500 gal (9500 l)
- 99% bacteria reduction
- Packaging: 25 Pcs.
- Note: Vessels are not required

Code	Description	€
CAR9000X	Hollow ultrafiltration membrane 0,12 µm	

# FLOW METERS

## Features

- Liter/Time/Flow meter DigiFlow 8000T-L is equipped with LCD display.
- It can monitor from 500 to 99.500 l and from 30 to 720 days.
- It can read instantaneous flow rate.
- The LCD of the DigiFlow 8000T-L blinks and generates an audible alert when the monitoring volume capacity of the specific filter reaches the end.
- It must be installed after the filter because it is sensitive to coarse particles in the water.
- The DigiFlow 8000T-L is operated by two AAA alkaline batteries which power lasts more than one year. The last status data will be automatically memorized when the battery power is off.

Code	Description	€
DF086L	Time-Flow-Litres Meter Digiflow 8000T-L	

## SHUT OFF METER

## Features

- This unique patented system to measure the volume of water blocks automatically the flow once it reaches the set value.
- Ideal for application in systems for which the filter replacement is important for the correct functioning of the system or in respect of the laws regarding drinking water.
- Max capacity: 6000 l
- Working pressure: min 1 bar, max. 8,7 bar
- 1/4" thread connections

Code	Description	€
O1022038/C	WATERMINDER automatic block counter - CA	

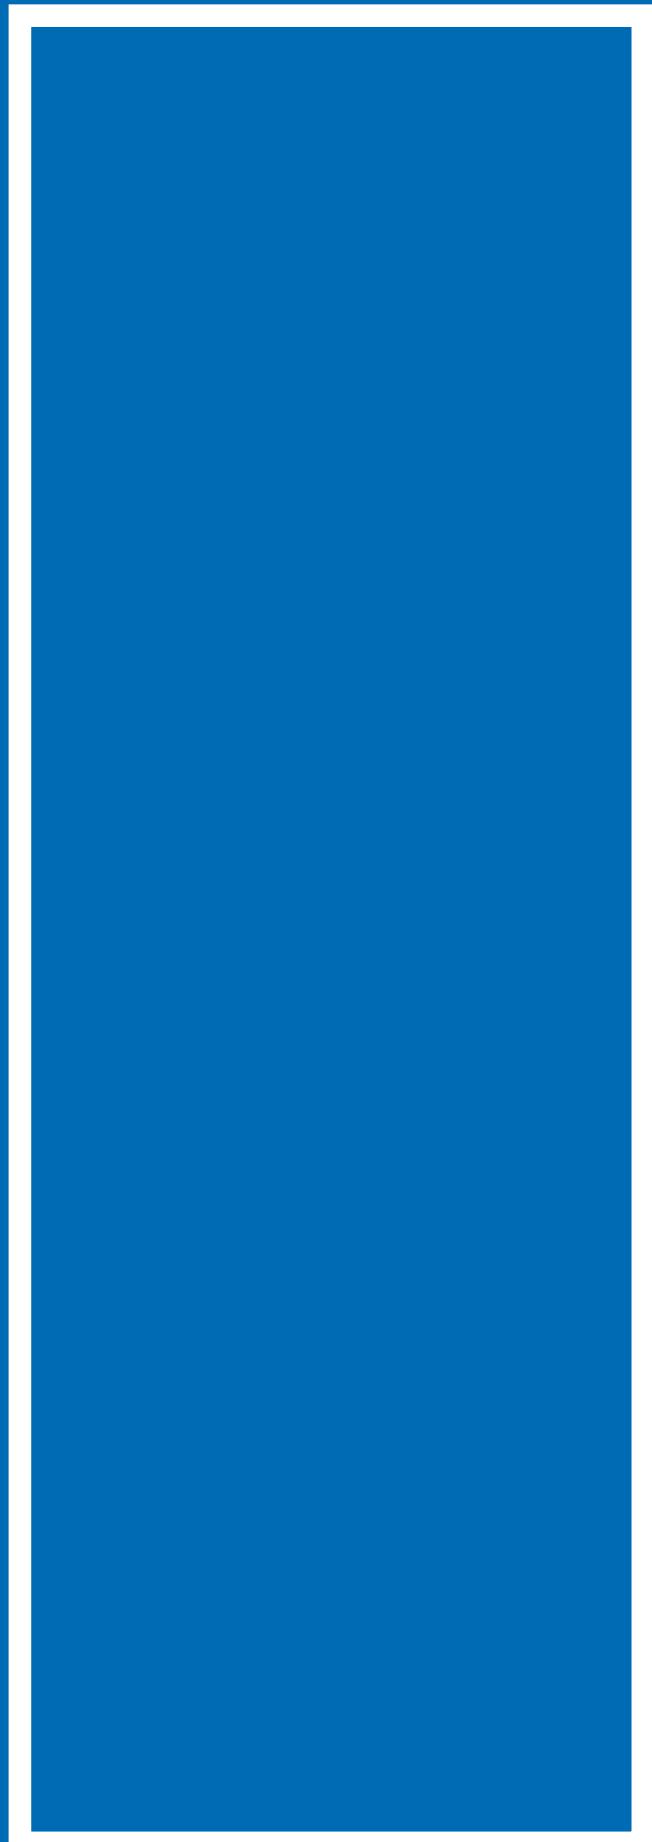

## PROFESSIONAL WATER METER

## Features

- Professional mechanical water meter, not resettable, suitable for panel/wall mount, with quick fittings 3/8".

Code	Description	€
CTLCMP	Box contalitri / Water flow meter

## PLEATED POLYESTER CARTRIDGES FOR WATER BIG

Pleated synthetic material cartridge for industrial uses and for filtering liquids in general.

### Technical specifications:

- Standard Ø ext.100mm and Ø int.28mm
- Min/max operating temperature 0°C/60°C
- FDA & DM 174 compliant polypropylene holder
- Pleated polyester filter media
- Mechanical surface filtration
- Type of maintenance: washable

## EXTRUDED CARBON BLOCK CARTRIDGES

### EXTRUSED CARBON BLOCK CARTRIDGES

Point-of-use cartridge for optimal chlorine reduction from primary drinking water.  
For technological use in the treatment of drinking and non-drinking water.

#### Technical specifications:

- Standard Ø ext.70mm and Ø int.28mm
- Min/max operating temperature 0°C/30°C
- FDA & DM 174 compliant rubber seals
- For food use with germicidal lamp
- CX100014, 16, 24 sold in packs of 25 pcs.
- CX100224 Sold in packs of 20 pcs.

# SINTERED ACTIVATED CARBON CARTRIDGES

## ACTIVE CARBON CARTRIDGES SILVERED 0.3 MICRON

Point-of-use cartridge for optimal chlorine reduction from primary drinking water.  
It performs a microfiltration function with antibacterial and bacteriostatic action as it is impregnated with silver.

### Technical specifications:

- Standard Ø ext.60mm and Ø int.28mm
- Min/max operating temperature 0°C/30°C
- FDA & DM 174 compliant rubber seals
- Type of maintenance: non-returnable

Code	Description	Ø mm	Height mm	Micron	Flow rate l/h	€/pc

# GRANULAR ACTIVATED CARBON CARTRIDGES

## GAC CARTRIDGES

Cartridge for civil use for optimal chlorine reduction from primary drinking water. For technological and industrial use in the treatment of drinking and non-drinking water.

### Technical specifications:

- Standard Ø ext.70mm and Ø int.28mm
- Min/max operating temperature 0°C/30°C
- FDA & DM 174 compliant rubber seals
- Vegetable-derived activated carbon
- For food use with germicidal lamp

# CARTRIDGE CASES AMG PLASTIC CONTAINERS SERIES 6

Container for domestic and technological use for the treatment of neutral pH drinking water.

## Technical specifications:

- Max. operating pressure 8 bar
- Min/max operating temperature 0°C/30°C
- Filled polypropylene head and ferrule
- SAN vase
- Installable with brackets
- All 20" vessels are supplied with 1/2" drain and cap

## MICRO SERIES

Container for technical use for in-line filtration.

### Technical specifications:

- 60 micron
- Max. operating pressure 6 bar
- Min/max operating temperature 0°C/40°C
- ABS header
- Transparent SAN vase
- 3/4" M/F threaded connections
- Network cartridge

## SERIE DUPLEX P600-D

Double housing, assembled with fitting and bracket, for domestic and industrial uses for treatment of drinking and no drinking water, particularly suitable where a double filtration and practicability of the product are required.

### Technical specifications:

- Max working pressure: 8 bar
- Min/max working temperature: 0°C / +40°C
- Brass inserts or without inserts
- Transparent SAN bowl
- On request white polypropylene or polyamide bowl
- Head and ring made of filled polypropylene
- Available in 2 pieces version
- Fitting with O-ring
- Double bracket
- Suitable with all cartridges of our range

# AMG BRASS-HEADED CONTAINERS

## SERIES SP600

Container for domestic and technological, civil and industrial use for the treatment of neutral pH drinking water, with high standards of mechanical strength and durability.

### Technical specifications:

- Max. operating pressure 12 bar
- Min/max operating temperature 0°C/50°C
- Brass head and ferrule
- Provision for pressure gauges
- Pressure relief screw
- Brackable in 1/2" - 3/4" - 1" versions
- Heads with 1" 1/4 - 1" 1/2 - 2" connections fit GTS cartridges
- Installable with brackets

## CONTAINERS IN AISI 316 AMG

## XX800 SERIES

Completely stainless steel container for industrial and food use or chemical for the filtration of aggressive liquids.

### Technical features:

- Max working pressure 15 bar
- Min/max operating temperature 0°C/90°C
- Head, clamp and bowl in AISI 316
- M6 INOX cartridge tension rod
- Predisposition for pressure gauges
- Pressure relief screw
- Brackable

# POLYPHOSPHATE DISPENSERS

## CRYSTALSOFT SERIES

Dosing unit useful for safeguarding washing machines and dishwashers by reducing limescale build-up on pipes and heating elements.

### Technical specifications:

- Max. operating pressure 4 bar
- Operating temperature: from -0°C to +30°C.
- ABS header
- Transparent SAN vase
- 3/4" M/F threaded connections

Code	Description	Connec-tions	L mm	H mm	Flow rate l/h	PZ per pack	€

OF1CS4SOOB	SOFT B with polyphosphates blistered	MF-3/4	60	125	500	24	

## CRYSTALSOFT B SERIES

Polyphosphate dispenser designed for use in dishwashers and water heaters.

### Technical specifications:

- Max. operating pressure 8 bar
- Operating temperature: from -0°C to +30°C.
- 3-way header, polypropylene ring nut and cap
- Transparent SAN vase
- Preloaded with polyphosphate crystals

Code	Description	€
OF1CB3	Cristalsoft B 1/2" polyphosphate dispenser	

## SERIE CRISTALSOFT MAX

Filter for industrial use for dosing polyphosphates, applicable on solar panel circuits, boilers, etc.

### Technical specifications:

- Max. operating pressure 8 bar
- Operating temperature: from -0°C to +30°C.
- Polypropylene head and ring nut
- Transparent SAN vase
- Preloaded with polyphosphate crystals

## ACCESSORIES AND SPARE PARTS FOR AMG POLYPHOSPHATE DISPENSERS

Code	Description	€
3K0001105	Diffuser kit for P600 5" filters	
3K0001107	P600 7" Filter Diffuser Kit	
3K0001109	Diffuser kit for P600 filters 9" 3/4	
3K0001120	P600 20" Filter Diffuser Kit	

## PROPORTIONAL POLYPHOSPHATE DISPENSERS

Proportional dosing of polyphosphates to protect systems against the action of limescale.

### SERIES DP NICKEL-PLATED BRASS

#### Technical specifications:

- Max. operating pressure 8 bar
- Operating temperature: from -5°C to +45°C.
- Swivelling 1/2" couplings
- Flow rate 1,5 m³/h

Code	Description
OF2DP20001	Polyphosphate Dispenser DP200 1/2" F H230 L75 diam. 65 Polyphosphate refill 80g
OF2DP20101	Polyphosphate dosing unit with by-pass DP200 1/2" F H230 L75 diam. 65 Polyphosphate refill 80g
OF2DP2E0	Polyphosphate dispenser DP200 Easy 1/2" M H145 L75 Polyphosphate refill 80g
OF2DP2E1	Polyphosphate dosing unit with by-pass DP200 Easy 1/2" M H145 L75 Polyphosphate refill 80g

### SERIES DP BRASS PLASTIC

#### Technical specifications:

- Max. operating pressure 8 bar
- Operating temperature: from -5°C to +45°C.
- Swivelling 1/2" couplings
- Flow rate 2 m³/h-

Code	Description
OF2DP2EP	Polyphosphate dispenser DP200 EASY PLUS 1/2" F H145 L75 Polyphosphate refill 80g

### DP300 OR

Proportional high-flow polyphosphate dosing unit.

#### Technical specifications:

- Max. operating pressure 8 bar
- Operating temperature: from -5°C to +45°C.
- Reinforced technopolymer header
- Transparent plastic vase
- Swivelling GAS-F couplings with brass swivel fittings
- No. 1 polyphosphate refill included

Code	Description
OF2DPO40	Polyphosphate dispenser DP300 OR 3/4" F H321 L110 Polyphosphate refill 500g
OF2DPO50	Polyphosphate dispenser DP300 OR 1" F H321 L116 Polyphosphate refill 500g
OF2DPO60	Polyphosphate dispenser DP300 OR 1" 1/4" F H321 L187 Polyphosphate refill 500g

**ACCESSORIES**

<b>Code</b>	<b>Description</b>	€
3051000103	Wrench	
3K000101	Pack of 6 ready-to-use polyphosphate anti-crease and anti-corrosion refills	
32531001N	Extension 1/2" to distance dosing unit from boiler	
3K000114	0.5 kg pack of polyphosphate anti-scale and anticorrosive powder	

**PROPORTIONAL DOSING SPARE PARTS****POLYPHOSPHATE REFILLS**

DP100013	Pre-hardened polyphosphate salt refill for DP DX 6-pack	
DP100014	DP MAX pre-hardened powder polyphosphate salt refill pack of 2.	
DP100020	Polyphosphate powder for feeders, in 1 kg packages	

**BOILER PROTECTION SYSTEMS  
FILTER SLUDGE REMOVAL UNIT EASY**

The sludge removal unit is a special filter for closed circuits of heating systems, designed to remove impurities such as sand, sludge and ferrous residues. The operating principle is both magnetic filtration, with a neodymium magnet housed in the centre of the filter, and mechanical filtration with a 500 micron stainless steel filtering mesh. Its special design allows it to be installed in-line, upside-down and with a 90° inlet-outlet. In the free connection it is possible to install a drain valve for rinsing, or (if positioned at the top) a manual or automatic venting device, or to prepare the connection for the loading of chemicals into the system by means of a pump.

**Technical specifications:**

- Compatible fluid: Water with glycol Max 30%
- Maximum pressure 3 bar 300 kPa
- Temperature: min./max.= +5/+90 °c
- Degree of filtration 500 µm
- Magnet power 3000 Gauss
- Diameter 83 mm
- Length 143 mm
- Connections F 3/4 G
- Boiler output up to 25kW

<b>Code</b>	<b>Description</b>	€
ONEA001	EASY 3/4" F deflector filter	

**ACCESSORIES**

<b>Code</b>	<b>Description</b>	€
3041100042	Wall bracket for mod. Easy	
305100603	Wrench	

## MICRO SLUDGE REMOVAL UNIT FILTER

The sludge removal unit is a special filter for closed circuits of heating systems, designed to remove impurities such as sand, sludge and ferrous residues. The operating principle is both magnetic filtration, with a neodymium magnet housed in the centre of the filter, and mechanical filtration with a 500 micron stainless steel filtering mesh. Its special design allows it to be installed in-line, upside-down and with a 90° inlet-outlet.

### Technical specifications:

- Min.-Max. operating temperature: 5°C-90°C
- Maximum working pressure 8 bars
- Degree of filtration: 500 µm
- Compatible fluid: Water with glycol max. 30%.
- Magnet power: up to 12000 Gauss
- Boiler power: 25 kW
- Reinforced technopolymer header and vase
- Vertical and horizontal installation with in-line or 90° connections
- Shut-off valve and vent valve as standard
- Provision for loading/unloading chemical agents
- Quick cleaning without disassembly

Code	Description	€
ONM1001	MICRO 3-way deflector filter 3/4" F	

### ACCESSORIES

Code	Description	€
3041100062	Wall bracket for mod. Micro	
3051001003	Wrench	

## DEFLECTOR FILTER OR

The sludge removal unit is a special filter for closed circuits of heating systems, designed to remove impurities such as sand, sludge and ferrous residues. The operating principle is both magnetic filtration, with a neodymium magnet housed in the centre of the filter, and mechanical filtration with a 500 micron stainless steel filtering mesh. Its special design allows it to be installed in-line, upside-down and with a 90° inlet-outlet.

### Technical specifications:

- Compatible fluid: Water with glycol Max 30%
- Maximum pressure 12 bar
- Temperature: min./max.= +5/+90 °C
- Degree of filtration 500 µm
- Magnet power 12000 Gauss
- GAS-F swivel brass couplings
- Boiler output 35kW

# CONDENSATE NEUTRALISERS

## NEUTRA V MICRO

The NEUTRA V Micro is a device designed for easy installation on the condensate outlet of new condensing boilers. The NEUTRA V Micro can solve the problem of acidic wastewater destined for the sewerage system.

Environmental regulations in many countries (in Italy UNI7129-5:2015), require water with a pH value between 5.5 and 9.5 in sewage. The operating principle consists of flowing the acidic condensate through the mineral in anti-clogging spheres, which slowly dissolves and neutralises the acidity.

### Technical specifications:

- Compatible fluid: Boiler condensate drain
- Maximum pressure 3 bar 300 kPa
- Temperature: min./max.= +5/+55 °c
- Max. flow rate 3 l/h
- Mineral capacity 110 g
- Diameter 45 mm
- Length 240 mm
- 3/4" G+Hose connections d. 12
- Boiler output up to 25kW

Complete with :

- Alkaline granular in anti-clogging spheres
- N 3 Hose Couplings

Code	Description	€
OF724C41	Neutral V Micro d.12	
OF724C411	Neutral V Micro d.20	

### ACCESSORIES

Code	Description	€
3k000125	0.50 kg alkaline granular beads	
3k000126	Alkaline granular filler 6 pcs. x 90 gr.	
3041100062	White Micro Bracket for Neutra V Micro	

## NEUTRAL V

The NEUTRA V is a device designed for easy installation on the condensate outlet of new condensing boilers.

NEUTRA V is able to solve the problem of acidic waste water destined for the sewerage system.

Environmental regulations in many countries (in Italy UNI7129-5:2015), require water with a pH value between 5.5 and 9.5 in sewage. The operating principle consists of flowing the acidic condensate through the mineral in anti-clogging spheres, which slowly dissolves and neutralises the acidity.

### Technical specifications:

- Compatible fluid: Boiler condensate drain
- Maximum pressure 3 bar 300 kPa
- Temperature: min./max.= +5/+55 °c
- Max. flow rate 3 l/h
- Mineral capacity 220 g
- Diameter 85 mm
- Length: 215 mm
- Connections 1/2" G+Hose connections d. 16
- Boiler output up to 35kW

Complete with :

- Alkaline granular in anti-clogging spheres
- N 2 Hose Couplings
- N 1 Wall bracket included

Code	Description	€
OF713M41	Neutral V	

### ACCESSORIES

Code	Description	€
3k000125	0.50 kg alkaline granular beads	
3k000126	Alkaline granular filler 6 pcs. x 90 gr.	
3041100042	Mini white bracket for Neutra V	

# SELF-CLEANING FILTERS

## AMG CLEANING FILTER SERIES

NEW

### AP 300

*Self-cleaning filter housing by shaking, for domestic and technological use. suitable for treatment of drinking water with neutral ph, for removal of suspended particles and sediments.*

#### Technical specifications:

- Max. working pressure 8 bar
- Min/max. working temperature 0°C / +30°C
- Three ways head and ring made of filled polypropylene
- Choice of horizontal or vertical way-out by means of thread plug + OR
- Transparent SAN bowl with discharge brass insert ½"
- Waste pipe faucet
- Cartridge with washable polyester net 50 micron (included)
- Possibility to equip with wall bracket

## AP BY-PASS

### Technical specifications:

- Filter with built-in BY-PASS system
- Maximum pressure: 8 bars
- Operating temperature: 0°C to 30°C
- 3/4 or 1" GAS brass connections
- Filled polypropylene header and ring nut
- Transparent SAN vase
- Drain cock with hose connector
- Vent plug
- Internal by-pass selector in POM
- Washable 60 micron polyester mesh cartridge (included)
- Installable with brackets

## S-CLEAN PRE-FILTER

### PROTECTS THE ENTIRE INSTALLATION

- It protects your domestic plant from substances such as rust particles, sand and other deposits.
- The high-quality brass head gives a robust, designer look for durable use.
- The filter housing is made of reinforced material, which can withstand freezing down to -30°C.
- Burst-tested with pressures above 50 bar and over 150,000 cycles at 12 bar.
- The filter housing is transparent for easy visual inspection.
- The filter mesh is made of high-precision SS316L up to 40 µm, made of food-grade stainless steel.
- No extra cost for filter replacement and maintenance.
- Forged connections in eco-friendly brass, safe to use.

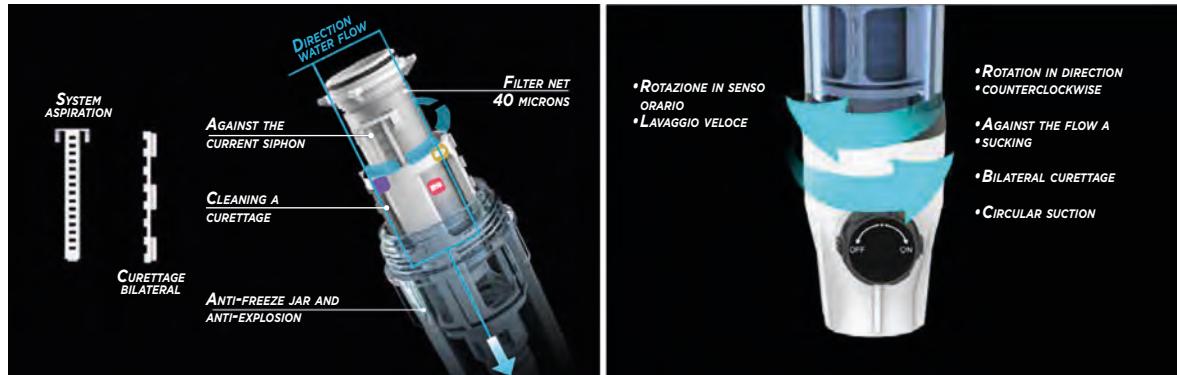

• Sediment can damage the entire plumbing system, especially valves, nozzles, coils, appliances.

They can also cause corrosion of pipes.

## S-CLEAN ECO

- Highly effective patented rinsing technology. Rotating the part clockwise, the particles can flow towards the drain.
- Suction cup array siphon cleaning technology, rotating the part counterclockwise, the siphon effect is increased to remove clean the particles trapped in the holes of the filter mesh.
- Double-sided cleaning technology, the brushes are made of rubber close to the filter mesh allowing for thorough cleaning with a simple rotary movement
- Patented 360° semi-automatic self-cleaning technology, the filter mesh it is washed in countercurrent with a jet of pressurized and filtered water.
- One-step filter cleaning, just turn the knob to start the hydrodynamic cleaning cycle.

- Patented 360° semi-automatic self-cleaning technology, the filter mesh is washed in countercurrent with a jet of pressurized and filtered water.
- Cleaning the filter with a single step, just rotate the knob to start the hydrodynamic cleaning cycle.

## S-CLEAN STD

- Carefully designed cover, with built-in pressure gauge and display of the water pressure.
- Equipped with a handy maintenance reminder ring that helps to keep clean the prefilter regularly.
- 360° universal connection design, rotatable flange for installation vertical and horizontal.
- All 8 m<sup>3</sup> / h prefilters can be equipped with a module automatic control in seconds.
- Designed with a high flow rate of 8 m<sup>3</sup>/h to meet demand of water use throughout the house.

- All 8 m<sup>3</sup>/h prefilters can be equipped with an automatic control module within seconds.
- Designed with a high flow rate of 8 m<sup>3</sup>/h to meet the water usage demand of the whole house.

## S-CLEAN PRO

- Built-in third-generation pressure reducer with innovative design.
- Automatic pressure regulation within 4 bar to ensure the operation of downstream equipment within certain safety levels.
- Double-action pressure regulating cylinder, wide adjustment range, more accurate control.
- The pressure reducer components are made of forged brass, which increases performance by 10 times compared to traditional diaphragm systems.
- Intelligent touch screen control module.
- Automatic washing: interval days and washing duration can be set manually as required for thorough washing.
- The module has a low power consumption and can be operated with a battery or from the mains.
- Control module design with valve opening and closing function for self-inspection.
- Automatic error alarm. Complete elimination of the risk of losses.
- Modular construction for convenient after-sales service.
- The double pressure gauge shows the inlet pressure and the stabilised pressure after adjustment.

- Intelligent touch screen control module.
- Automatic Washing: Interval days and washing duration can be set manually as needed for thorough washing.

# SPEEDY AND PROFI SERIES

## SPEEDY JSY

Automatic, time-controlled self-cleaning filter with backwash for water up to 30°C according to DIN 19632.

Cleaning the sock with brushes and backwashing by removing dirt at the drain.

The automatism operates the cleaning brushes and opens the drain valve.

The filter cap is made of synthetic Rilsan PN 16; the flange is made of brass with a fixed connection for installation on horizontal pipes; the threaded connection complies with DIN 2999.

The sock is made of stainless steel; the average filter capacity is 100 µm.

The ceramic exhaust valve provides better wear resistance.

The canopy is equipped with a washing reminder calendar.

Exhaust connection in accordance with DIN 1988.

The filter is prepared for the installation of an automatic timed cleaning system.

Compared to manual models in the automatic version, cleaning takes place independently through an operating regulation with four possible schedules: daily, weekly, monthly and bi-monthly.

The backwash is driven by a 9-volt electric motor; the system is equipped with a buffer battery to complete the backwash in the event of a power failure.

## PROFI

Automatic self-cleaning filter with backwash for water up to 30°C according to DIN 19632.

The filter cap is made of Rilsan PN 16 synthetic material; the flange is made of brass with a 360° rotatable screw connection for installation on both vertical and horizontal piping; the threaded connection complies with DIN 2999; the sock is made of stainless steel with a silver bath to reduce bacterial growth; the average filter capacity is 100 µm.

Backwashing is performed by the 9V electric motor acting on the unique point rotation system for simultaneous cleaning of the filter element and inspection glass.

During backwashing, a flow velocity of 5.5 m/s develops, which speeds up the process while consuming less water than conventional systems.

The ceramic exhaust valve provides better wear resistance.

Exhaust connection in accordance with DIN 1988. Cleaning takes place independently with an adjustment: hourly, daily, weekly and monthly (for T versions) and via an adjustable differential pressure switch (for TP versions).

Socks with different filter capacities are available on request.

## PROFI FLANGED HIGH FLOW

Manual or automatic self-cleaning filter with backwash for water up to 30°C according to DIN 19632.

The filter cap is made of Rilsan PN 16 synthetic material; the flange is made of brass with a 360° rotatable screw connection for installation on both vertical and horizontal piping; the threaded connection complies with DIN 2999; the sock is made of stainless steel with a silver bath to reduce bacterial growth; the average filter capacity is 100 µm.

Backwashing is performed by the 9V electric motor acting on the unique point rotation system for simultaneous cleaning of the filter element and inspection glass.

During backwashing, a flow velocity of 5.5 m/s develops, which speeds up the process while consuming less water than conventional systems.

The ceramic exhaust valve provides better wear resistance.

Exhaust connection in accordance with DIN 1988.

The DN65 to DN100 models have one filter bag, the DN125 model has 2 filter bags, the DN 150 model has 3 filter bags and the DN 200 model has 4 filter bags.

Cleaning takes place independently with an adjustment: hourly, daily, weekly and monthly (for T versions) and via an adjustable differential pressure switch (for TP versions).

# AISI 316 AMG CONTAINERS

## SERIES XX800

Fully stainless steel container for industrial, food or chemical use for the filtration of aggressive liquids.

### Technical specifications:

- Max. operating pressure 15 bar
- Min/max operating temperature 0°C/90°C
- Head, Clamp and Vessel in AISI 316
- Cartridge tensioning tie rod INOX M6
- Provision for pressure gauges
- Pressure relief screw
- Installable with brackets

**AISI 316 VESSEL - WITH 1/2" THREADED OUTLET**

## STERILISERS AISI 304

### WL SERIES

Ultraviolet sterilisation plants of the WL Technology series constructed with an AISI 304 stainless steel body equipped with a visual lamp exhaustion/malfunction alarm system and an operating hour counter timer only starting with model WL-UV110W-M.

Maximum execution pressure:

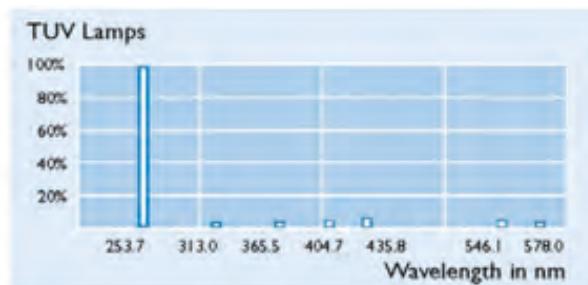

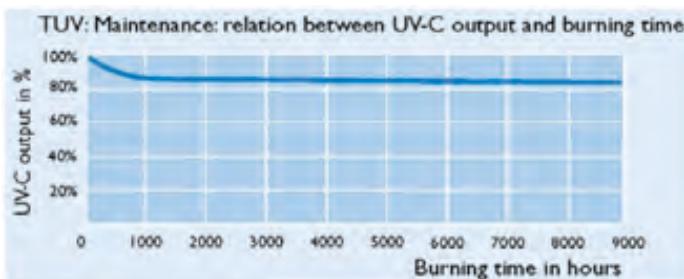

WL-UV4W - WL-UV16W: 6 bar

WL-UV25W - WL-UV880W: 6 bar

Power supply voltage: 220 V - 50 Hz

Lamp service life: 8.000h

Ultraviolet radiation dosage: 30.000 wW/cm<sup>2</sup>

# AUTOMATIC CLACK VALVES

## VALVES CM

They are programmable with dry vat or std, UF or DF regeneration system (depending on the type of version used).

If dry vat UF is programmed, proportional regeneration can be set.

The display is backlit. The language is in Italian.

A time alarm for maintenance (quarter-year interval) can be set.

The name and telephone number of the system manufacturer can be entered, which also appears on the display when the maintenance alarm is activated.

The display can be set to energy-saving, it switches off after 5' if no button is pressed.

It has a relay that can be activated in several ways:

- After X amount of time from the start of regeneration it can be activated for X amount of time
- After X l in service it can be activated for X time
- After X l in service and bypass during regeneration it can be activated for X amount of time
- After X volume of water passed

## WS1CI VALVES

Electronic 1" valve with regeneration start by time and volume can be used for both filtration and softening.

The operating parameters are fully programmable so as to optimise the system in all respects.

Up to 9 steps per regeneration cycle can be set and the hardness is programmable in both ppm and °F.

All operating data and service history are stored in a non-volatile memory and can be recalled at any time for system analysis.

### Technical specifications:

- Operating flow rate 1bar dP - 6.12 m<sup>3</sup>/h
- Backwash flow rate 1.7 bar dP - 6.12 m<sup>3</sup>/h
- Connections Inlet/outlet 1" on request 3/4", 1" 1/4
- Operating pressure min 1.4 bar - max 8.6 bar
- Operating temperature min 4°C - max 43°C
- Supply voltage 230 VAC
- Power supply frequency 50 Hz
- Valve body material Noryl®
- Softening cylinder 6"-16" (1600) - 18"-21" (1700)
- Filter cylinder 9"-12" (DLFC 3/4") - 13"-21" (DLFC 1")

### ACCESSORIES INCLUDED

#### IN THE SOFTENING VERSION:

Upper filter - Code D1203  
 Lower Filter - Code D1236  
 Distributor Hose Ø 27 - Code ARI00364  
 Transformer - Code V3186EU  
 Exhaust nut - Code V3192

## WS1TC VALVES

Simplified 1" electronic valve, with timed regeneration start for Filtration and Softening.

In this version of electronics, pre-programmed cycles can be selected without being able to vary the parameter individually. The only setting that can always be changed is the brine filling time so that, in the case of softening applications, the correct amount of brine is available for the regeneration cycle.

### Technical specifications:

- Operating flow rate 1 bar dP - 6.12 m<sup>3</sup>/h
- Backwash flow rate 1.7 bar dP - 6.12 m<sup>3</sup>/h
- Connections Inlet/outlet 1" on request 3/4", 1"1/4"
- Operating pressure min 1.4 bar - max 8.6 bar
- Operating temperature min 4°C - max 43°C
- Supply voltage 230 VAC
- Power supply frequency 50 Hz
- Valve body material Noryl®
- Softening cylinder 6"-16" (1600) - 18"-21" (1700)
- Filter cylinder 9"-12" (DLFC 3/4") - 13"-21" (DLFC 1")

### ACCESSORIES INCLUDED

## WS1.25CI VALVES

Electronic 1" 1/4 valve with regeneration start by time and volume can be used for both filtration and softening. The operating parameters are fully programmable so as to optimise the system in all respects. Up to 9 steps per regeneration cycle can be set and the hardness is programmable in both ppm and °F. All operating data and service history are stored in a non-volatile memory and can be recalled at any time for system analysis.

### Technical specifications:

- Operating flow rate 1 bar dP - 7.7 m<sup>3</sup>/h
- Backwash flow rate 1.7 bar dP - 7.3 m<sup>3</sup>/h
- Input/output connections : 1" 1/4 Male
- Operating pressure min 1.4 bar - max 8.6 bar
- Operating temperature min 4°C - max 43°C
- Supply voltage 230 VAC
- Power supply frequency 50 Hz
- Valve body material Noryl®
- Softening cylinder 10"-16" (1600) - 18"-21" (1700)
- Filter cylinder 9"-12" (DLFC 3/4") - 13"-21" (DLFC 1")

### ACCESSORIES INCLUDED IN THE SOFTENING VERSION:

Upper filter - Code D1203-03  
 Lower Filter - Code D1238  
 Dispenser Pipe Ø 32 x 1500 mm - Code ARI00362  
 Transformer - Code V3186EU

## WS2CI/QC VALVES

2" electronic valve with time and volume regeneration start that can be used for both filtration and softening.

The operating parameters are fully programmable so as to optimise the system in all respects.

Up to 9 steps per regeneration cycle can be set and the hardness is programmable in both ppm and °F.

All operating data and service history are stored in a non-volatile memory and can be recalled at any time for system analysis.

The valve has clamp-type connections for the main connections.

This exists in a head-mounted or side-mounted version.

### Technical specifications:

- Operating flow rate 1bar dP - 28.4 m³/h
- Backwash flow rate 1.7 bar dP - 19.3 m³/h
- Inlet/outlet connections 2" BSPT
- Operating pressure min 1.4 bar - max 8.6 bar
- Operating temperature min 4°C - max 43°C
- Supply voltage 230 VAC
- Power supply frequency 50 Hz
- Valve body material: Bronze
- Softening cylinder 16"-48" (1700)
- Cylinder Filtration 16" up to 36"
- Cylinder attachment: 6" Flanged Top/ Side Mounting

### ACCESSORIES INCLUDED

#### IN THE SOFTENING VERSION:

Head Mounting Adapter 6" Flanged - Code V3055  
(distributor pipe connection Ø 63)

Side mounting adapter 2 "BSPT

Part no. V3260BSPT-02

Transformer - Code V3186EU

DLFC (for Version 1700) - Code V3190-XXX

Air Check 1/2" - Code FLA18979 (Version 1700)

1" drain connection - Code V3008-05 (version 1700)

Adapter for Air check 1/2" - Code H4924 (Version 1700)

#### ACCESSORIES INCLUDED IN THE FILTER VERSION:

Head Mounting Adapter 6" Flanged - Code V3055  
(distributor pipe connection Ø 63)

Side mounting adapter 2 "BSPT

Part no. V3260BSPT-02

DLFC (for Version 1") - Code V3162-XXX

Drain fitting 1" 1/2 - Code V3080BSPT

Transformer - Code V3186EU

## WS3 VALVES H

3" electronic valve with time and volume regeneration start for Softening and Filtration.

The operating parameters are fully programmable so as to optimise the system in all respects.

This valve exists in several configurations so that it can be mounted on both single-hole flanged 6" cylinders (Top Mount) and double-hole cylinders (Side Mount).

### Technical specifications:

- Operating flow rate 1 bar dP - 56.8 m<sup>3</sup>/h
- Backwash flow rate 1.7 bar dP - 50 m<sup>3</sup>/h
- Input/output connections: 3"
- Operating pressure min 1.4 bar - max 8.6 bar
- Operating temperature min 4°C - max 43°C
- Supply voltage 230 VAC
- Power supply frequency 50 Hz
- Valve body material: Bronze
- Softening cylinder up to 79"
- Cylinder Filtration up to 63"
- Cylinder attachment: 6" Flanged Top/ Side Mounting

## VALVOLE VTT1.5CI-CM TWIN

1"1/2 Electronic Duplex Valve with timed regeneration start and volume usable for softening.

The operating parameters are completely programmable in order to optimize the system from all points of view.

Up to 9 phases can be set for each regenerative cycle and the hardness can be programmed both in ppm and in °F.

All the operating data and the service history are stored in a non-volatile memory and can be recalled at any time for a system analysis.

### Technical features:

- Operating flow rate 1.0 bar dP - 13.6 m<sup>3</sup>/h
- Backwash flow rate 1.7 bar dP - 9.8 m<sup>3</sup>/h
- Inlet/outlet connections: 1" 1/2 BSPT
- Operating pressure min 1.4 bar - max 8.6 bar
- Operating temperature min 4°C - max 43°C
- Power supply voltage 230 VAC
- Power frequency 50/60 Hz
- Valve body material: glass fibre reinforced plastic material
- Softening cylinder 14"-16" (1600) - 18"-24" (1700)
- Filtration cylinder 14" up to 24"
- Cylinder thread: 4" 8UN
- Filettatura Bombola: 4" 8UN

### ACCESSORIES INCLUDED:

Upper filter - Code D1199-11

Lower filter - Code FLA18396

Distributor tube Ø 50 - Code AR100369

Transformer - Code V3186EU

DLFC (for Version 1600-1700) - Code V3162-0XX

## WS1CI - WS1CM DF DUPLEX VALVE SYSTEM

Duplex systems consist of two WS1CI valves plus a 3-way valve for line alternation in service. In particular, they are systems where one column is always in service and the other is in regeneration or stand-by.

Regeneration starts via the valve-built-in turbine. Version 1600 - 3-way valve model V3069MM including Elbow Fitting Kit - Code V3191-01 Version 1700 - 3-Way Valve Model V3069FF including 1" Male Fitting Kit - Code V3007-06

### ACCESSORIES INCLUDED IN THE SOFTENING VERSION:

- Upper filter - Code D1203
- Lower Filter - Code D1236
- Distributor Hose Ø 27 - Code AR100364
- Transformer - Code V3186EU
- Exhaust nut - Code V3192
- Insert for drain connection - Part No. PKP10TS8-BULK
- DLFC (for Vers. 1600) - Code V3162-XXX
- DLFC (for Vers. 1700) - Code V3190-XXX
- Air Check 3/8" - Code FLA18168 (Vers. 1600)
- Air Check 1/2" - Code FLA18979 (Vers. 1700)
- 1" drain connection - Code V3008-02 (vers. 1700)
- Adapter for Air check 1/2" - Code H4924 (Vers. 1700)
- 3/8" Elbow Intermediate - Code P10312S (Vers. 1600)
- Fitting Kit 1" Male BSP - Code V3007-06

## WS1.5PCI DUPLEX VALVE SYSTEM

Duplex systems consist of two WS1.5PCI valves, plus a 3-way valve for line alternation in service, in particular they are systems where one column is always in service and the other is in regeneration or stand-by. The start of regeneration is via a volumetric counter positioned after the 3-way valve. Delivery includes a 3-way valve model V3034.

CL100392	2" duplex system WS2CIM DF 1700 complete with two valves and motorised three-way valve	

## DUPLEX VALVE SYSTEM WS2CI QC - WS2CM QC DF

Duplex systems consist of two 2" valves plus a 3-way valve for line alternation in service. In particular, they are systems where one column is always in service and the other is in regeneration or stand-by. The start of regeneration takes place via a volumetric counter in series positioned after the 3-way valve.

Delivery includes a 3-way valve model V3076BSPT 2" female.

The valve has clamp-type connections for the main connections.

This exists in a head-mounted or side-mounted version.

### ACCESSORIES INCLUDED IN THE SOFTENING VERSION:

WS2H/2QC Head Mounting Adapter 6" Flanged

Part No. V3055 (distributor tube Ø 63)

WS2H/2 QC Side Mounting Adapter 2" BSPT- Part No.

## DUPLEX SYSTEM WS2CI PLT VALVES

Duplex systems are composed of two 2" valves plus a 3-way valve to alternate the line in service. In particular, they are systems in which one column is always in service and the other is in regeneration or stand-by. Regeneration begins via a volumetric counter in series positioned after the 3-way valve. The supply includes a 3-way valve model V3036 2" female

### ACCESSORIES INCLUDED

#### WATER SOFTENER VERSION::

Upper filter Under valve - Code D1199-11

Distributor tube Ø50 x 1820 mm - Code FLA18404

Transformer - Code V3186EU

Air Check 3/8" - Code FLA18168 (Vers. 1600)

Air Check 1/2" - Code FLA18979 (Vers.1700)

2" connection V4460-02 - V4460-03

Meter V3048QC

Adapter for Air check 1/2"

Code H4924 (Vers. 1700)

Intermediate elbow 3/8"

Code PI0312S (Vers. 1600)

## WS3 DUPLEX VALVE SYSTEM

Duplex systems consist of two WS3 valves plus a 3-way valve for line alternation in service. In particular, they are systems where one column is always in service and the other is in regeneration or stand-by. The start of regeneration takes place via a volumetric counter in series positioned after the 3-way valve. These valves can be mounted on both single-hole cylinders (Top mounting) and double-hole cylinders (Side mounting). The scope of delivery includes a 3-way valve model V3083BSPT 3" female.

### ACCESSORIES INCLUDED IN THE SOFTENING VERSION:

Transformer - Code V3461EU

Head Mounting Adapter 6" Flanged - Code V3090

Side mounting adapter 3" BSPT- Part no. V3674BSPT-02

3" BSP Drain Connector Kit - Code V3764BSPT

CL300135	3" WS3 duplex system complete with two SIDE-mounted valves and motorised three-way valve	

## MULTIVALVE CONTROL UNIT

The control unit allows the control of up to 6 Clack valves from 1" to 2" simultaneously with different programming solutions. With this system, the manufacturer can design customised systems according to the needs of the end user. Below are the various management possibilities:

**Progressive flow** Each valve in the system requires its own meter. In a progressive flow system, a flow ADD-POINT must be set. This ADD-POINT is the flow quantity at which one or more units are put into service to achieve the required flow quantity. The units will be put into service after the flow exceeds this previously set ADD-POINT and will maintain this flow for 30 seconds. If the flow increase quickly exceeds the ADD-POINT by 120%, the unit will be put into service immediately to achieve the required flow. Units are taken out of service when the flow demand decreases by 90 per cent of the individual unit's ADD-POINT for 1 minute.

**Alternating flow** Each valve in the system requires its own meter. In an alternating system, one unit will always be in WAIT or REGENERATION with all others in SERVICE. The alternating system has a unique logic that staggers the valves based solely on capacity so that there is always sufficient capacity even with a valve in regeneration.

**Random** Each valve in the system requires its own counter. All units are in service until a unit starts regenerating. Regeneration is only possible to one valve at a time. Each individual valve is allowed to regenerate when necessary.

**Series** Each valve in the system requires its own meter or it is also possible to use a single meter at the outlet of the system connected directly to the control unit. All units are in service until a unit starts regenerating. Regeneration is only possible to one valve at a time. If one of the valves indicates regeneration, that valve will be the first to go into regeneration followed by all the other valves in series.

### Technical specifications:

- The control unit can control from 2 to 6 units. 1.0", 1.25", 1.5" or 2" Clack valves can be used
- All valves are electrically powered directly from the centreline.
- All operating and diagnostic data can be uploaded to a standard USB drive
- The control unit is equipped with two relays
- The volume of each individual unit can be programmed.
- A lithium battery maintains the time in the event of a power failure
- Microprocessor with user-friendly front programming
- The front display shows the time of day, day of the week, days until the next regeneration, current flow and total volume used by the system
- Panel LEDs indicate the status of the system Online, Standby and in regeneration

Not shown	V3961	FITTING KIT WS2 1/4+C546:C5582 POLYTUBE	

\*ANY V3162-XXX FLOW CONTROL MAY BE USED. WS2 VALVES ARE SHIPPED WITH A V3162-022 (2.2 GPM) FLOW CONTROL. FLOW CONTROL SIZES RANGE FROM 0.7 UP TO 10 GPM. WS2 VALVES CAN ONLY BE SET FOR MINUTES OF FILL BECAUSE VARIOUS SIZES OF FLOW CONTROLS CAN BE USED. TO CALCULATE FOR POUNDS OR KILOGRAMS OF SALT, TAKE MINUTES OF FILL TIMES THE FLOW RATE OF THE FLOW CONTROL BEING USED TO ARRIVE AT THE NUMBER OF GALLONS OF WATER BE ADDED TO THE BRINE TANK. EACH GALLON OF WATER WILL DISSOLVE APPROXIMATELY 3 POUNDS OF SALT.

\*\* BSPT VALVES ALSO INCLUDE A V3797 WS1 FTG 1 MALE BSPT ELBOW

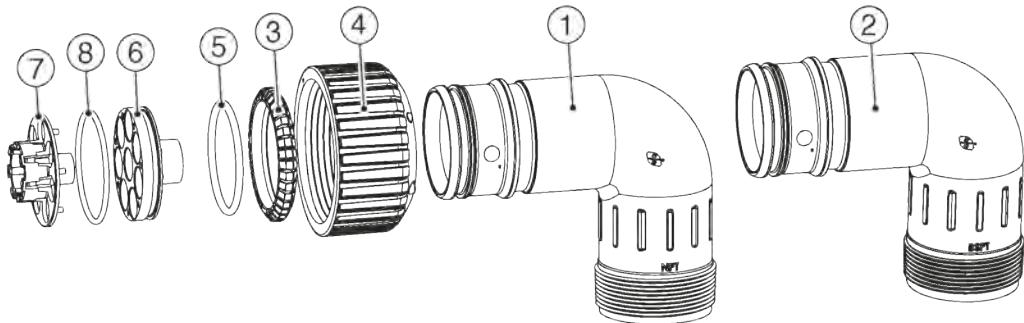

\*\*\*USE OF V3961 MAY SEVERELY REDUCE BRINE DRAW RATES.

BACKWASH ONLY VALVES INCLUDE A V3499 BUT DO NOT INCLUDE THE FOLLOWING PARTS: V3189, H4915, V3162-022, V3231, AND V3277.

## 6.1 AUTOTROL 1" VALVES

### AUTOTROL VALVE 255

Valve for typical residential applications. Plastic construction (Noryl®). Available with electronic controller for start-up and regeneration cycle management.

#### **Technical specifications:**

Operating flow rate 1bar dP - 3.5 m<sup>3</sup>/h  
 Backwash flow rate 1.7 bar dP - 1.5 m<sup>3</sup>/h  
 Cylinder attachment: 2"-1/2" 8 NPSM  
 Input/output connections: 1"  
 Operating pressure min 1.4 bar - max 8.3 bar  
 Operating temperature min 2°C - max 38°C  
 Power supply voltage 230 VAC  
 Power supply frequency: 50 Hz  
 Valve body material: Noryl®  
 Softening cylinder: 6"-14"

#### **ACCESSORIES INCLUDED IN THE SUPPLY**

Dispenser tube Ø 27 x 1160 mm - Code AR100364  
 Under-valve diffuser Ø 27 - Code AR100345  
 Background diffuser Ø 27 - Code AR100355  
 1" brass mixer connection kit - Code AU100056  
 Nut with built-in ogive - Code JP61D06P  
 Cranked end Ø3/8 "x1/4" - Code JP70YL06P04  
 Cover for valve 255 400 series - Part No. 3019870  
 Cover for valve 255 series 700 - Part No. 1236246

## AUTOTROL VALVE 268 PERFORMA

*Performa Logix is a non-corrosive, UV-resistant valve with a body made of fibre-reinforced polymer matrix material for superior strength and longevity. Designed with double backwash for less hardness loss, its capacities are compatible with tank diameters up to 16" for softening and up to 18" for filtration. In addition, a proven flapper ensures a friction-free seal for a long life; programming, saved in memory, will not be lost in the event of a power failure.*

*Technical specifications:*

- *Operating flow rate 1bar dP - 5.7 m<sup>3</sup>/h*
- *Backwash flow rate 1.7 bar dP - 4.5 m<sup>3</sup>/h*
- *Cylinder attachment: 2" ½ 8 NPSM*
- *Input/output connections: 1"*
- *Operating pressure min 1.4 bar - max 8.3 bar*
- *Operating temperature min 2°C - max 38°C*
- *Power supply voltage 230 VAC*
- *Power supply frequency: 50 Hz*
- *Valve body material: Noryl®*
- *Softening cylinder: 6"*
- *Tank filtration: 6"-18"*

## 6.2 AUTOTROL VALVES 1" 1/2

### AUTOTROL MAGNUM CV 1.5" VALVE

The Magnum control valve is one of the most versatile on the market. It has a fully electronic control platform, with a super capacitor that allows a 24-hour back-up, making a battery unnecessary. In addition, the cartridge-style assembly ensures easy installation and cleaning of injectors and refills. Specifications

- Operating flow rate 1bar dP - 17.3 m<sup>3</sup>/h
- Backwash flow rate 1.7 bar dP - 20.2 m<sup>3</sup>/h
- Cylinder attachment: 4" 8 NPSM
- Input/output connections: 1,5"
- Operating pressure min 1.7 bar - max 7 bar
- Operating temperature min 2°C - max 38°C
- Power supply voltage 230 VAC
- Power supply frequency: 50 Hz
- Valve body material: Noryl®

**NHWB = Non Hard Water Bypass**

## 6.3 AUTOTROL 2 VALVES

### AUTOTROL MAGNUM IT 2" VALVE

The Magnum control valve is one of the most versatile on the market. It has a fully electronic control platform, with a super capacitor that allows a 24-hour back-up, making a battery unnecessary. In addition, the cartridge-style assembly ensures easy installation and cleaning of injectors and refills. Specifications

- Operating flow rate 1bar dP - 18.2 m<sup>3</sup>/h
- Backwash flow rate 1.7 bar dP - 20.2 m<sup>3</sup>/h
- Cylinder attachment: 4" 8 NPSM
- Input/output connections: 1,5
- Operating pressure min 1.7 bar - max 7 bar
- Operating temperature min 2°C - max 38°C
- Power supply voltage 230 VAC
- Power supply frequency: 50 Hz
- Valve body material: Noryl®
- Softening cylinder: 6

## 6.4 AUTOTROL DUPLEX 2 VALVES

### AUTOTROL VALVE MAGNUM DUPLEX 2"

- suitable for automatic industrial water softening systems;
- prepared for operation in both alternating duplex and parallel duplex;
- consisting of 2 valves (one 'master' and the other 'slave') with electronic volumetric timer 764;
- single column operating flow rate 18.2mc/h
- range single column resin capacity = 100 + 700 litres;
- adapters, fittings and accessories
- the reintegration system at the brine vat does not require a safety float valve, but air-check only
- interconnecting pipes are not including
- complete with power supply socket 12/230V - 50Hz with European plug

## RESIDENTIAL VALVE 4600 MECHANICAL AND 4600 ELECTRONIC SXT

Technical specifications:

- Operating flow rate 1 bar dP - 4.5 m<sup>3</sup>/h
- Backwash flow rate 1.8 bar dP - 1.6 m<sup>3</sup>/h
- Cylinder attachment: 2" 1/2 8 NPSM
- Input/output connections: 1" on request 3/4"
- Operating pressure min 1.4 bar - max 8.5 bar
- Operating temperature min 4°C - max 82°C (65°C volumetric version)
- Power supply voltage 230 VAC
- Power supply frequency: 50 Hz
- Valve body material: Bronze
- Softening cylinder: 6"-12"

For hot water

### **Accessories included in the softening version**

HW Dispenser Pipe Ø 27 x 1950 - Code FLA21675

Air Check HW 3/8" - Codice FLA23473

1" Brass Yoke - Code FLA13398-10

Filter cylinder 9"-12" (DLFC 3/4") - 13"-21" (DLFC 1")

### MECHANICAL 4600 VALVE WITH ACCESSORIES

Valve for hot water applications. The valve body is made of brass. The volumetric version can be used with water up to 65°C. The chronometric version can be used up to 82°C.

- Adjustable brine
- Start Chronometric Regeneration: 2 days
- Volumetric regeneration start: delayed

Code	Description	€
FL46001602	Valve 4600/1600 hot water 82°C complete	
FL46001606	Valve 4600/1600 3/4" Volume 8m <sup>3</sup> hot water 65°C complete	

### 4600 SXT ELECTRONIC VALVE WITH ACCESSORIES

Valve for hot water applications. The valve body is made of brass and is ideal for softening and filtration applications, with a fully programmable electronic board to control the regeneration cycle and regeneration start.

- Backlit display
- Full programmability of the regenerative cycle
- Regeneration start: chronometric, immediate volumetric, delayed volumetric, manual
- Service and self-diagnostic indicators
- Advanced programming options, including the possibility of programming up to 6 regeneration cycles with independent time adjustment
- Possibility of double backwash

Code	Description	€
FL46001612	Fleck 4600/1600 SXT hot water valve 82°C complete

Fleck Valves

## RESIDENTIAL VALVE 5600 MECHANICAL AND 5600 ELECTRONIC SXT

Technical specifications:

- Operating flow rate 1 bar dP: 4,5 m<sup>3</sup>/h
- Backwash flow rate 1.8 bar dP: 1,6 m<sup>3</sup>/h
- Cylinder attachment: 2" ½ 8 NPSM
- Input/output connections: 1" on request ¾"
- Operating pressure: min 1.4 bar - max 8.5 bar
- Operating temperature: min 4°C - max 43°C
- Supply voltage 230 VAC or 230-24 VAC transformer
- Motor power supply 230 VAC or 24 VDC
- Power supply frequency: 50 Hz
- Valve body material: Noryl™
- Softening cylinder: 6"-12" (1600)
- Cylinder Filtration: 6"-10" (1600)

### Accessories included in the softening version

Dispenser tube Ø 27 x 1160 mm - Code ARI00364

Background diffuser Ø 27 - Code ARI00355

1" Brass Yoke - Code FLA13398-10

Air Check 3/8" - Code FLA18168

### Accessories included in the filter version

Dispenser tube Ø 27 x 1160 mm - Code ARI00364

Background diffuser Ø 27 - Code ARI00355

1" Brass Yoke - Code FLA13398-10

Code	Description	€
FL56001601	Valve 5600/1600 220v complete	
FL56001605	Valve 5600/1600 3/4" Volume 8 m <sup>3</sup> 220v complete	

## SXT ELECTRONIC VALVE 5600 WITH ACCESSORIES

Plastic residential valve, for filtration softening applications, with fully programmable electronic board to control the regeneration cycle and regeneration start.

- Backlit display
- Full programmability of the regenerative cycle
- Regeneration start: chronometric, immediate volumetric, delayed volumetric, manual
- Service and self-diagnostic indicators
- Advanced programming options, including the possibility of programming up to 6 regeneration cycles with independent time adjustment
- Possibility of double backwash

Code	Description	€

FL5600SXTF	Valve 5600/1600 SXT Filter complete	

## VALVE TWIN 9000 MECHANICAL TIMER AND TIMER SXT

*Technical specifications:*

- Operating flow rate 3/4" valve: 1 bar dP - 4.0 m<sup>3</sup>/h
- Operating flow rate 1" valve: 1 bar dP - 4.7 m<sup>3</sup>/h
- Backwash flow rate 1.8 bar dP - 1.9 m<sup>3</sup>/h
- Input/output connections: 3/4 O; + 1
- Cylinder attachment: 2" 1/2 8 NPSM
- Operating pressure: min 1.8 bar - max 8.5 bar
- Operating temperature: min 4°C - max 43°C
- Power supply voltage 230 - 24VAC transformer
- Power supply frequency: 50 Hz
- Valve body material: Bronze
- Softening cylinder 6"-16" (1600)

### **Accessories included in the supply**

Dispenser Pipe Ø 27 x 1600 mm - Code ARI00365

Background diffuser Ø 27 - Code ARI00355

1" Brass Yoke - Code FLA13398-10

Air Check 3/8" - Code FLA18168

## VALVE 9000 MECHANICAL TIMER WITH ACCESSORIES

*Industrial valve with bronze body for softening applications with alternating service and immediate volumetric regeneration.*

*Regeneration with softened water*

*Starting Volumetric Regeneration: Immediate*

## INDUSTRIAL VALVE 2750 TIMER SXT

Fully programmable electronic valve for controlling the regeneration cycle and regeneration start. The control part is protected against splash water by a sealing cover with gasket to achieve IP44 protection.

Bronze valve body

Starting regeneration : Manual, Chronometric, Volumetric

*Technical specifications:*

- Operating flow rate 1 bar dP - 5.9 m<sup>3</sup>/h
- Backwash flow rate 1.8 bar dP - 5.6 m<sup>3</sup>/h
- Cylinder attachment: 2" 1/2 8 NPSM
- Connections Inlet/outlet 1"
- Operating pressure min 1.8 bar - max 8.5 bar
- Operating temperature min 1°C - max 43°C
- Power supply voltage 230-24 VAC transformer
- Power supply frequency 50 Hz
- Valve body material: Bronze
- Softening cylinder 10"-16" (1600) - 21"-24" (1700)
- Cylinder Filtration 10"-21"

### **Accessories included in the softening version**

Dispenser Pipe Ø 27 x 1600 mm - Code ARI00365

Background diffuser Ø 27 - Code ARI00355

Air Check 3/8" - Code FLA18168 (Version 1600)

Air Check A.C.900 - Code FLA18979 (Version 1700)

### **Accessories included in the filtration version**

Dispenser Pipe Ø 27 x 1600 mm - Code ARI00365

Background diffuser Ø 27 - Code ARI00355

## VALVE 2750 WITH ACCESSORIES

## INDUSTRIAL VALVE 2850 TIMER SXT

Fully programmable electronic valve for controlling the regeneration cycle and regeneration start. The control part is protected against splash water by a sealing cover with gasket to achieve IP44 protection.

Bronze valve body

Starting regeneration : Manual, Chronometric, Volumetric

Technical specifications:

- Operating flow rate 1 bar dP - 11.6 m<sup>3</sup>/h
- Backwash flow rate 1.8 bar dP - 11.1 m<sup>3</sup>/h
- Cylinder attachment: 4" 8 UN
- Connections Inlet/outlet 1" 1/2
- Operating pressure min 1.8 bar - max 8.5 bar
- Operating temperature min 1°C - max 43°C
- Power supply voltage 230-24 VAC transformer
- Power supply frequency 50 Hz
- Valve body material: Bronze
- Softening cylinder 10"-16" (1600) - 18"-30" (1700)
- Cylinder Filtration 10"-24"

**Accessories included in the softening version**

Distributor Pipe Ø 50 x 1660 mm - Code FLA21148-01

Background diffuser Ø 50 - Code FLA18396

Air Check 3/8" - Code FLA18168 (Version 1600)

Air Check A.C.900 - Code FLA18979 (Version 1700)

**Accessories included in the filtration version**

## INDUSTRIAL VALVE 2910 TIMER SXT

Fully programmable electronic valve for controlling the regeneration cycle and regeneration start. The valve is designed with a double piston in order to optimise the management of the system from a flow rate point of view. The control part is protected against splash water by a sealing cover with gasket to achieve IP44 protection.

Bronze valve body

Starting regeneration : Manual, Chronometric, Volumetric

Technical specifications:

- Operating flow rate 1bar dP - 24 m<sup>3</sup>/h
- Backwash flow rate 1.8 bar dP - 8 m<sup>3</sup>/h
- Cylinder attachment: 4" 8 UN
- Inlet/outlet connections 2" BSP
- Operating pressure min 1.8 bar - max 8.5 bar
- Operating temperature min 1°C - max 43°C
- Power supply voltage 230-24 VAC transformer
- Power supply frequency 50 Hz
- Valve body material: Bronze
- Softening cylinder 14"-16" (1600) - 18"-36" (1700)

### **Accessories included in the softening version**

Distributor Pipe Ø 50 x 1660 mm - Code FLA21148-01

Background diffuser Ø 50 - Code FLA18396

Air Check 3/8" - Code FLA18168 (Version 1600)

Air Check A.C.900 - Code FLA18979 (Version 1700)

### **Accessories included in the filtration version**

Distributor Pipe Ø 50 x 1660 mm - Code FLA21148-01

Background diffuser Ø 50 - Code FLA18396

## INDUSTRIAL VALVE 3150 TIMER NXT

Valve for industrial applications with electronics that fully manages the regenerative cycle, all cycle parameters and possible communication in the system of up to 4 cylinders.

- Two-line LCD display with 16 characters
- Connection of up to 4 valves
- Possible configurations: System 4,5,6,7 and 9

Available signals:

- Remote starter
- Inhibiting the start of regeneration
- Programmable relay
- Three levels of programming: User, Installer, Diagnostics

Technical specifications:

- Operating flow rate 1 bar dP - 22 m<sup>3</sup>/h Head mounting version
- Operating flow rate 1 bar dP - 22 m<sup>3</sup>/h Side mounting version
- Backwash flow rate 1.8 bar dP - 24 m<sup>3</sup>/h Head mounting version
- Backwash flow rate 1.8 bar dP - 25 m<sup>3</sup>/h Side mounting version
- Cylinder attachment for overhead mounting: 4" 8 UN
- Inlet/outlet connections 2" BSP
- Operating pressure min 1.8 bar - max 8.5 bar
- Operating temperature min 1°C - max 43°C
- Power supply voltage 230-24 VAC transformer
- Power supply frequency 50 Hz
- Valve body material: Bronze
- Softening Cylinder 24"-42" (TOP Mount) - 24"-60" (Side Mount)

### **Accessories included in the softening version**

Air Check A.C.900 - Code FLA18979 (Version 1800)

## INDUSTRIAL VALVE 3900 TIMER NXT

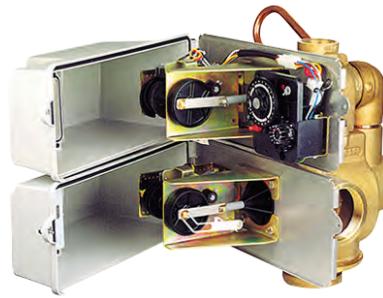

Ideal valve for use in industrial and multi-column system applications. The valve is designed with a double piston in order to optimise the management of the system from a flow rate point of view. The control part is protected against splash water by a sealing cover with gasket to achieve IP44 protection.

The advanced electronics fully manage the regenerative cycle, all cycle parameters and the possible communication in the system of up to 4 cylinders.

- Two-line LCD display with 16 characters
- Networking of up to 4 valves
- Possible configurations: System 4,5,6,7 and 9
- Available signals:
  - Remote starter
  - Inhibiting the start of regeneration
  - Programmable relay
  - Three levels of programming: User, Installer, Diagnostics

*Technical specifications:*

- Operating flow rate 1bar dP - 57 m<sup>3</sup>/h
- Backwash flow rate 1.8 bar dP - 24 m<sup>3</sup>/h
- Cylinder attachment for overhead mounting: Flange 6
- Inlet/outlet connections 3" BSP
- Operating pressure min 1.8 bar - max 8.5 bar
- Operating temperature min 1°C - max 43°C
- Power supply voltage 230-24 VAC transformer
- Power supply frequency 50 Hz
- Valve body material: Bronze
- 30"-60" softening cylinder

**Accessories included in the softening version**

Air Check A.C.900 - Code FLA18979 (Version 1800)

## 3900 VALVE WITH ACCESSORIES

# SIATA VALVES

## VALVE V132

Valve for softening, filtration, demineralisation applications for head mounting. Manual control: can be achieved by means of a 1/4"- 1/2" three-way ball valve.

Technical specifications:

- Cylinder connection 2"1/2
- Maximum operating pressure 8.7 bar
- Flow rate at 1 bar  $\Delta P$  - 6 m<sup>3</sup>/h
- Typical cylinder sizes from 7" to 18 "vf
- Quantity of regenerable resin from 15 to 150 litres

### Inlet/outlet pipe connections

Model with quick couplings - Siata connectors code 2265-xxx

Threaded model - 2" BSP male

### Accessories included:

Upper filter - Code 1001-321

Lower Filter - Code 1002-D32

### WITH QUICK INLET-OUTLET CONNECTIONS

Code	Description	€
V132A05	Softening valve body	
V132F05	Body valve filtration	
V132T05	Valve body with turbine	

### WITH QUICK INLET-OUTLET CONNECTIONS AND EXTERNAL CONNECTIONS

Code	Description	€
V132ET0505	Duplex valve body 5 connections with turbine	

### FOR DEMINERALISATION WITH FAST INPUT AND OUTPUT

Code	Description	€
V132D0405	Anion valve body with probe	
V132D0505	Body Cationic valve	

## FITTINGS FOR V132, V240 WITH RAPIDE CONNECTION

Code	Description	€
2265-A/05	3/4" female threaded fitting kit (NYLON )	
2265-B/05	Fitting kit 1" female threaded (NYLON )	
2265-C/05	Fitting kit 1" 1/4 female threaded (NYLON )	
2265-H/05	Fitting kit 2" external - 1" internal (NYLON )	
2265-I/05	Fitting kit 2" external - 1" 1/4 internal (NYLON )	
2265-K/05	Fitting kit 1" 1/2 female threaded (NYLON )	

## VALVE V230

Valve for softening, filtration, demineralisation applications for head mounting.

Technical specifications:

- Cylinder connection 4"
- Maximum operating pressure 8.7 bar
- Flow rate at 1 bar  $\Delta P$  - 8  $m^3/h$
- Typical cylinder sizes from 14" to 21"
- Quantity of regenerable resin from 80 to 200 litres

### Inlet/outlet pipe connections

Threaded model - 2" BSP male

### Accessories included:

- Upper filter - Part No. 1005-A/05 for Softening
- Lower Filter - Part No. 1006-A/05 for Softening
- Upper filter - Code 1005-F/05 for Filtration
- Lower Filter - Code 1006-F/05 for Filtration
- Upper filter - Code 1005-D/05 for Demineralisation
- Lower Filter - Code 1006-D/05 for Demineralisation

#### WITH TWIN PILOTS

Code	Description	€
V230A05	Softening valve body	
V230F05	Body valve filtration	
V230T05	Valve body with turbine	

## FITTINGS FOR V132 AND V230

Code	Description	€
494-F/05	Brass fitting kit 2" valve side - 1" 1/2 male	

## FITTINGS FOR V250

Code	Description	€
494-A/05	PVC fitting kit 2" 1/4 valve side - Ø 50 mm gluing	
494-G/05	Brass fitting kit 2" 1/4 valve side 2" male	

## 3-WAY VALVE 63 MM

3-way (diversion) valve.

Technical specifications:

- 2" 3/4 BSP male connection
- Maximum operating pressure 6 bar
- Maximum pilot pressure 3.5 bar
- Flow rate at 1 bar of  $\Delta P$  - 72  $m^3/h$  at 90° flow

NOTE! Attachments not included.

#### DIVERSION VALVE

Code	Description	€
3V63FE05	THREE-WAY VALVE	

## SEA WATER PROFILER VALVES

### FITTINGS FOR V350, V351 AND 3V-50

Code	Description	€
494-A/05	PVC fitting kit 2" 1/4 valve side - Ø 50 mm gluing	
494-G/05	Brass fitting kit 2" 1/4 valve side 2" male	

### FITTINGS FOR V363 AND 3V-63

Code	Description	€
494-U/05	Fitting kit 2" 3/4 PVC valve side - 2" PVC NPT	
FLA25797	Diffusore inferiore Ø 27 mm UF & alta capacità	

### FITTINGS FOR V363 AND 3V-63

Code	Description	€
494-A/05	PVC fitting kit 2" 1/4 valve side - Ø 50 mm gluing	

## SIATA ACCESSORIES

### BY-PASS

Siata by-passes allow maintenance to be carried out on the system without blocking use. This allows for easier maintenance, reducing intervention times by not requiring the pipes to be removed from the fittings. These exist in several versions, so that they can be adapted to the most diverse installation situations.

Code	Description	€
BP-DP/06	By-pass with proportional mixer and unstable valve and draw-off valves	
BP-DP/08	By-pass with mixer without unstable valve and draw-off valves	
BP-FD/05	By-pass for filtration	
BP-FDP/05	Filtration by-pass with sampling taps	
BP-FR/05	Remote by-pass for filtration	
BP-R/06	Remote proportional mixer by-pass and unstable valve	
BP-RP/06	Remote by-pass with unstable valve and draw-off tap	

### BY-PASS FITTINGS

Code	Description	€

BOX-7P/05	7-pilots mechanized box for DEMI (demineralization)	

## OTHER

Code	Description	€
111-C	ST & SP controller blank cover plate	

# CAST-IRON HYDROPNEMATIC VALVES

## TWO-WAY NO/NC DIAPHRAGM VALVES FOR FLUIDS

Two-way inclined seat valve of the integral diaphragm type for all types of fluid with normally open or normally closed operation.

The valve allows the interception of non-aggressive fluids. Opening or closing can be controlled either manually or automatically by simply intercepting the motor fluid via a pilot valve.

**Manual control:** can be achieved by means of a 1/4"- 1/2" three-way ball valve.

**Automatic control:** can be achieved by means of a three-way pilot solenoid valve.

**Control fluid:** The same fluid can be used to intercept. Another fluid may be used as long as it is non-aggressive or compressed air. For the valve to function properly, it is necessary that the motor or control fluid has a pressure at least equal to or greater than that of the fluid to be tapped.

Code	Description	€

*Runxin Valv*

# RUNXIN VALVES

**RUNXIN** is the most advanced and largest manufacturer of multi-port valves for water treatment for both filter and softening applications.

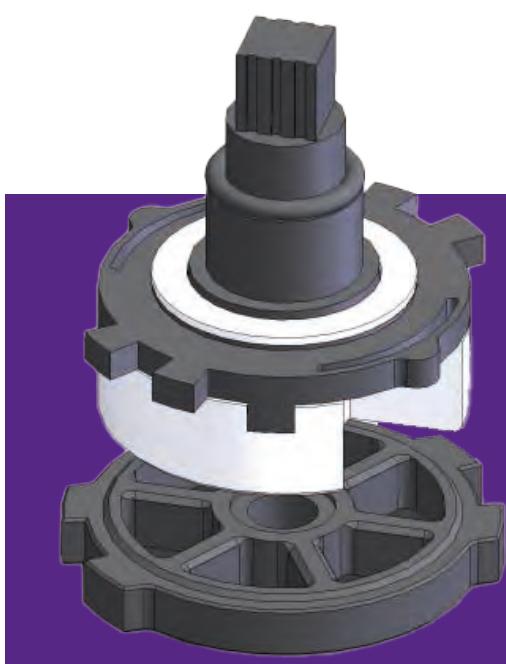

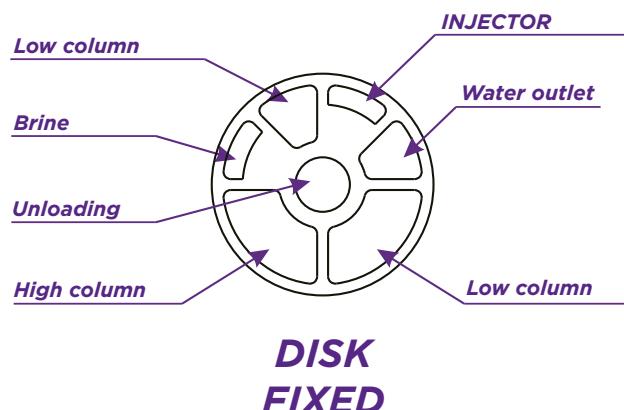

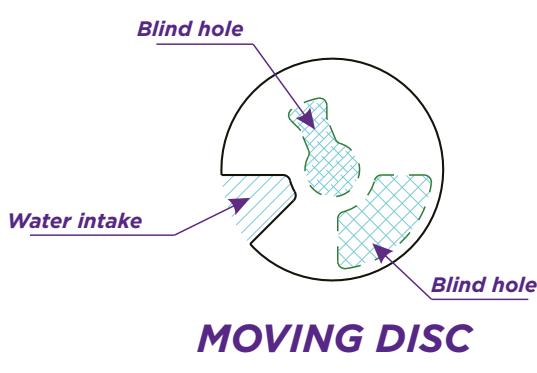

The technology used is patented in more than 20 countries, certified according to CE and RoHS, and consists of the famous high-precision ceramic discs that have made Runxin world famous for hot water mixers.

Unlike conventional piston- or cam-operated valves, the operating principle of Runxin valves is based on two high-precision ceramic discs manufactured by Runxin itself.

One disc is held stationary while the other rotates 360° above it, allowing water to pass through and thus inducing the valve's various stages of operation.

The valve, thanks to the advanced technology of the electronic control unit, then allows the management of operating times, operating mode (time/volume) and the acquisition of the various operating signals.

## ***The operating principle of Runxin valves***

***The structure of Runxin valves is different from all other valves currently on the market in that they adopt ceramic discs to implement all regenerative phases of the valve.***

***Five magnetic sensors give the discs positioning with no margin for error.***

## VALVES 2MC/H

### VOLUME VALVE F79B

Softening valve, optionally equi-current/counter-current. Plastic construction. The header is electronic for start-up and regeneration cycle management. This comes with a volumetric counter and mixing screw.

Technical specifications:

- Operating flow rate 1bar dP - 2.0 m<sup>3</sup>/h
- Cylinder attachment: 2" 1/2 8 NPSM
- Input/output connections: 3/4"
- Operating pressure min 0.15 - max 0.6 MPar
- Operating temperature min 5°C - max 50°C
- Power supply voltage 230 VAC
- Power supply frequency: 50 Hz
- Valve body material: Noryl®
- Cylinder 6"-12"

#### Accessories included in the supply

Dispenser tube Ø 27 x 1160 mm - Code ARI00364

Under-valve diffuser Ø 27 - Code ARI00345

Background diffuser Ø 27 - Code ARI00355

Air Check 3/8" - Code FLA18168

Elbow intermediate 3/8" - Code P10312S

Code	Description	€
VTMF7900	Valve F79B-LCD volume 3/4" UF/DF complete with accessories	

## AUTOMATIC F69 SOFTENING VALVE

Softening valve with equi-current service and counter-current regeneration. Plastic construction. The header is electronic for start-up and regeneration cycle management. The start of regeneration is volumetrically delayed with the possibility of forcing with a 0-30 day interval.

Technical specifications:

- Operating flow rate 1 bar dP - 2.0m<sup>3</sup>/h
- Cylinder attachment: 2" 1/2 8 NPSM
- Input/output connections: 3/4" F
- Operating pressure min 0.15 - max 0.6 MPa
- Operating temperature min 5°C - max 50°C
- Power supply voltage 230 VAC
- Power supply frequency: 50 Hz
- Valve body material: Noryl®
- Cylinder 6"-12"

#### Accessories included in the supply

Dispenser tube Ø 27 x 1160 mm - Code ARI00364

Under-valve diffuser Ø 27 - Code ARI00345

Background diffuser Ø 27 - Code ARI00355

Air Check 3/8" - Code FLA18168

Elbow intermediate 3/8" - Code P10312

## AUTOMATIC F69 SOFTENING VALVE

Softening valve with equi-current service and counter-current regeneration. Plastic construction. The header is electronic for start-up and regeneration cycle management. The start of regeneration is volumetrically delayed with the possibility of forcing with a 0-30 day interval.

Technical specifications:

- Operating flow rate 1 bar dP - 2.0m<sup>3</sup>/h
- Cylinder attachment: 2" 1/2 8 NPSM
- Input/output connections: 3/4" F
- Operating pressure min 0.15 - max 0.6 MPa
- Operating temperature min 5°C - max 50°C
- Power supply voltage 230 VAC
- Power supply frequency: 50 Hz
- Valve body material: Noryl®
- Cylinder 6"-12"

### **Accessories included in the supply**

Dispenser tube Ø 27 x 1160 mm - Code AR100364

Under-valve diffuser Ø 27 - Code AR100345

## AUTOMATIC VALVE F65 SOFTENING

Equicurrent softening valve for both service and regeneration. Plastic construction. The header is electronic for start-up and regeneration cycle management. The start of regeneration is chronometric.

Technical specifications:

- Operating flow rate 1 bar dP - 2.0 m<sup>3</sup>/h
- Cylinder attachment: 2" 1/2 8 NPSM
- Input/output connections: 3/4"
- Operating pressure min 0.15 - max 0.6 MPa
- Operating temperature min 5°C - max 50°C
- Power supply voltage 240 VAC
- Power supply frequency: 50 Hz
- Valve body material: Noryl®
- Cylinder 6"-12"

### **Accessories included in the supply**

Dispenser tube Ø 27 x 1160 mm - Code AR100364

Under-valve diffuser Ø 27 - Code AR100345

Background diffuser Ø 27 - Code AR100355

## DUPLEX VALVES

### AUTOMATIC VALVE F73 DUPLEX SWEETENING

Filtration Valve for Softening. 1 valve for 2 tanks. Alternating volumetric with electronic header for operating/regeneration cycles.

Technical specifications:

- MAX operating flow rate - 3.5 m<sup>3</sup>/h
- Cylinder attachment: 2" 1/2 8 NPSM
- Input/output connections: 1" M
- Operating pressure min 0.15 - max 0.6 MPa
- Operating temperature min 5°C - max 50°C
- Power supply voltage 230 VAC
- Power supply frequency: 50 Hz
- Valve body material: Noryl®
- Cylinder 8"-14"

#### Accessories included in the supply

Dispenser tube Ø 27 x 1160 mm - Code ARI00364

Under-valve diffuser Ø 27 - Code ARI00345

Background diffuser Ø 27 - Code ARI00355

Air Check 3/8" - Code FLA18168

Elbow intermediate 3/8" - Code PI0312

Code	Description	€
VTMF7300	F73A Duplex Single Valve 1" UF/DF complete with accessories	

# FILTER VALVES

## AUTOMATIC VALVE F67 FILTRATION

Timing-type filtration valve. Plastic construction. The header is electronic in order to manage the operation/regeneration cycles.

Technical specifications:

- MAX operating flow rate - 4.0 m<sup>3</sup>/h
- Cylinder attachment: 2" 1/2 8 NPSM
- Input/output connections: 1" M
- Operating pressure min 0.15 - max 0.6 MPa
- Operating temperature min 5°C - max 50°C
- Power supply voltage 230 VAC
- Power supply frequency: 50 Hz
- Valve body material: Noryl®
- Cylinder 6"-14"

### **Accessories included in the supply**

Dispenser tube Ø 27 x 1160 mm - Code ARI00364

Under-valve diffuser Ø 27 - Code ARI00345

Background diffuser Ø 27 - Code ARI00355

Code	Description	€
VTMF6700	Valve F67B chrono 1" filter complete with accessories	

## AUTOMATIC VALVE F75 FILTRATION

Filtration valve of chronometric type. Plastic construction. The header is electronic in order to manage the operation/regeneration cycles.

Technical specifications:

- MAX operating flow rate - 10.0 m<sup>3</sup>/h
- Cylinder attachment: 4" 8 UN
- Input/output connections: 2" M
- Operating pressure min 0.15 - max 0.6 MPa
- Operating temperature min 5°C - max 50°C
- Power supply voltage 230 VAC
- Power supply frequency: 50 Hz
- Valve body material: Noryl®
- Cylinder 16"- 24"

### **Accessories included in the supply**

Distributor Pipe Ø 50 x 1660 mm - Code FLA21148-01

Background diffuser Ø 50 - Code FLA18396

Under-valve diffuser - Code KIT-8

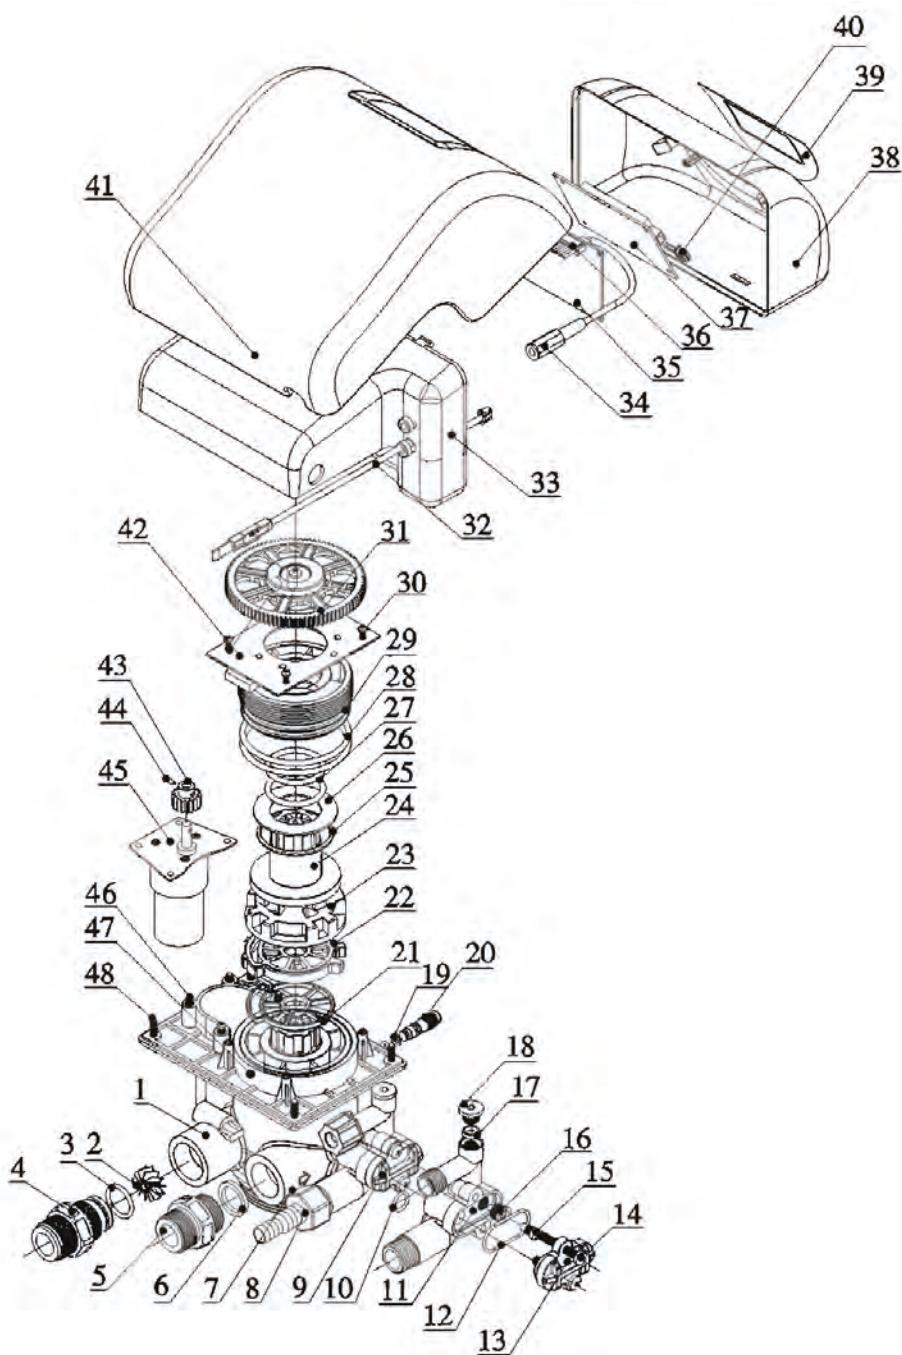

Code	Description	€
VTMF7520	Valve F75A chrono 2" filter complete with accessories	

## BY-PASS AND ACCESSORIES

Code	Description	€
VTMF7000	By-pass F70A for valves F63 and F68	
VTMF7010	By-pass F70B for valves F65 and F69	
VTMF7030	By-pass F70C for valve F63-F68-F82 angle connections

## CHANNEL VALVES

### VALVE BNT650

The classic mechanical time valve with extremely simple operation. The cycle duration is fixed and the regeneration interval is set. Ideal for economical installations. The valve includes 4 adjustment kits for different cylinder diameters.

Technical specifications:

- MAX operating flow rate - 4,500 L/h
- Cylinder attachment: 2"-1/2" NPSM
- Input/output connections: 1"
- Working pressure 0.14-0.84 MPa
- Operating temperature min 1°C - max 42°C
- Power supply voltage 230 VAC
- Power supply frequency: 50 Hz
- Valve body material: Noryl®
- Cylinder: up to 16"

Code	Description	€
BNT650C	BNT650 valve without by-pass connection 1" complete with accessories	

### VALVE BNT265F

Electronic valve with removable display. The valve is equipped with a bypass. The easy-to-read display shows the time, the type of regeneration set and the remaining capacity during operation. Possibility of setting time-based, immediate volumetric, delayed volumetric or mixed regeneration. The cycles are adjustable in duration.

Technical specifications:

- MAX operating flow rate - 4,500 L/h
- Cylinder attachment: 2"-1/2" NPSM
- Input/output connections: 1"
- Working pressure 0.14-0.84 MPa
- Operating temperature min 1°C - max 42°C
- Power supply voltage 230 VAC
- Power supply frequency: 50 Hz
- Valve body material: Noryl®
- Cylinder: up to 16"

Code	Description	€
BNT265FC	BNT265F volume remote timer valve with 1" bypass complete with accessories	

### VALVE BNT750

Electronic valve with extremely small dimensions. Simple programming that allows you to check each regeneration cycle by choosing it from the screen, thus avoiding waiting for the whole regeneration. Possibility of setting time-based, immediate volumetric, delayed volumetric or mixed regeneration. The cycles are adjustable in duration. The valve is equipped with a bypass

with an built-in turbine to significantly reduce depth gaps.

Technical specifications:

- MAX operating flow rate - 4,500 L/h
- Cylinder attachment: 2"-1/2" NPSM
- Input/output connections: 1"
- Working pressure 0.14-0.84 MPa
- Operating temperature min 1°C - max 42°C
- Power supply voltage 230 VAC
- Power supply frequency: 50 Hz
- Valve body material: Noryl®
- Cylinder: up to 16"

Code	Description	€
BNT750FC	BNT750F BLU volume valve with by-pass connection 1" complete with accessories	

## VALVE BNT185

Electronic valve with a modern design and extremely simple programming. Piston positioning via optical sensor. The valve is equipped with a bypass with an built-in turbine to significantly reduce gaps in depth. Possibility of setting time-based, immediate volumetric, delayed volumetric or mixed regeneration. The cycles are adjustable in duration.

Technical specifications:

- MAX operating flow rate - 4,500 L/h
- Cylinder attachment: 2"-1/2" NPSM
- Input/output connections: 1"
- Working pressure 0.14-0.84 MPa
- Operating temperature min 1°C - max 42°C
- Power supply voltage 230 VAC
- Power supply frequency: 50 Hz
- Valve body material: Noryl®
- Cylinder: up to 16"

Code	Description	€
BNT185C	BNT185 volume valve with by-pass connection 1" complete with accessories	

## VALVE BNT5850 SE-DF

Electronic valve with a large colour display and extremely easy programming. Possibility of setting time-based, immediate volumetric, delayed volumetric or mixed regeneration. The cycles are adjustable in duration. Holiday mode can be selected. The valve has a bypass with an built-in turbine.

Technical specifications:

- MAX operating flow rate - 4,500 L/h
- Cylinder attachment: 2"-1/2" NPSM
- Input/output connections: 1"
- Working pressure 0.14-0.84 MPa
- Operating temperature min 1°C - max 42°C
- Power supply voltage 230 VAC
- Power supply frequency: 50 Hz
- Valve body material: Noryl®
- Cylinder: up to 16"

Code	Description	€
BNT5850SEC	Valve BNT5850 SE DF volume with bypass connections 1" full display with accessories	

## VALVE BNT950F

Electronic valve with colour display and user-friendly programming via icons. The flow rate of 11 mc/hr and the possibility of treating up to 290 litres of resin make it an extremely interesting valve. Possibility of setting time-based, immediate volumetric, delayed volumetric or mixed regeneration. The cycles are adjustable in duration. Holiday mode can be set, which allows the resin to be flushed when the system is not in use for an extended period.

Technical specifications:

- MAX operating flow rate - 10,000 L/h
- Cylinder attachment: 4 NPSM
- Input/output connections: 1" 1/2
- Working pressure 0.14-0.84 MPa
- Operating temperature min 1°C - max 42°C
- Power supply voltage 230 VAC
- Power supply frequency: 50 Hz
- Valve body material: Noryl®
- Tank: up to 24"

Code	Description	€
BNT950FC	Valve BNT950F softening volume connection 1"1/2 complete with accessories

smoked black lid*

*White body  
Transparent cover.*

### **Innovative Design**

Defined and linear shapes

### **Customisation**

Choice of colour (on minimum batches) and branding customisation possibilities

### **VERSATILITY**

Valve cover suitable for the main valves on the market

### **Italianness**

Designed and manufactured entirely in Italy

### **- completeness**

One-piece cabin cruiser with cockpit

### **Functional packaging**

Single packaging until final assembly

Pearl, the new one-piece cabinet for domestic water softeners designed and manufactured by Water Line entirely in Italy is a real gem in terms of design, versatility and functionality.

The linearity of the shapes and the colour variants make it a modern design object, suitable to be placed in different environments, without renouncing functionality: consisting of a linear body with dedicated housing for universal Water Line chlorine generators, it is completed by a cover with a semi-transparent front, which can be removed without interfering with the valve.

Pearl is also extremely versatile thanks to its high level of compatibility: it is able to accommodate 99% of the valves on the European market such as Autotrol, Canature, Clack, Fleck, Runxin. Particular attention in the product design was also paid to the packaging: the cabinets feature functional packaging designed to remain unique from the first assembly to the transformation into a finished softener.

## SALT LEVEL ALARMS

### SALT DETECT

*Salt Detect*' is specially designed for domestic and industrial water softeners. This detection system can be hung on the wall with double Velcro tape and/or screws. A small electrical box with power supply, built-in alarm signal and LED indicator light is connected to a sensor that monitors the salt level from above. This complete implant can fit in the palm of your hand.

The light signals are obtained thanks to two LED bulbs: "green" continuous light in the absence of an alarm and "red" flashing in the event of an alarm. You can choose whether to set the acoustic signal to a high or low tone or to switch it off with a switch, while the light indicators remain active and visible at all times. Only when the alarm goes off should the vat be filled above the minimum detection line set by the technician. In other words, you will not have to fill the salt vat completely, and in case you do not have a sufficient supply of salt, even a small amount may be enough to automatically switch off the alarm. The detection range is between 11cm and 120cm and can therefore be mounted on any type of salt vat. The detection distance is determined using a 'teach-function' button that must be held down for 2 seconds. The setting remains stored even in the event of a power failure. This unit is available in both a 220 Vac/CE version with interchangeable plugs for various European countries, and a 110 Vac/UL + CUL version with an American/Canadian plug.

Code	Description	€
AR100601	Salt Detect model salt alarm device 220V - 50Hz power supply	

## SALT GUARD

This 'wireless salt level alarm system' is designed specifically for home water softeners and operates by means of a transmitter and receiver.

The transmitter is connected via a plastic cable, which can be easily adjusted to any length, to a weight placed over the salt. When the weight tensions the plastic cable, the transmitter moves to a vertical position and then sends a signal (up to a range of 25 metres indoors) to the receiver (equipped with a built-in magnet, to be hung on the refrigerator, for example), which in turn emits an intermittent light signal every 3 seconds. When it is time to add salt, press the 'reset' button on the receiver. Batteries should be replaced once a year (a set of batteries is included in delivery). Ideal for new installations and resale.

## UNDER-BONNET BOX FILTER

**Stainless steel**

**Installation under counter and undersocket**

**Removes bad taste and odours**

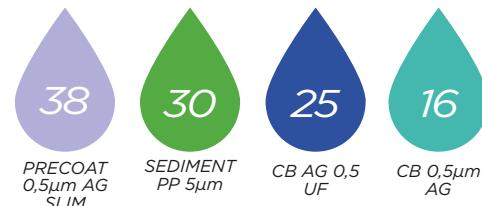

**Antibacterial Ultrafiltration for drinking water**

**1-way tap included**

### Features

- Dispenser capable of treating drinking water from the water mains.
- It consists of two stages of OCEANO filtration and is able to eliminate odours and tastes through the microfiltration filter, and bacteria through an ultrafiltration stage.
- Box Filter undersocket is also available as an IN LINE filter version with three stages of filtration:
  - GAC (granular active carbon) for removal of chlorine, odours and tastes)
  - MELT BLOW for mechanical action at 5 microns
  - UF for bacteria removal
- Litre/hour counter for signalling filter exhaustion.
- Weight 4.5/7 kg
- Power supply: drinking water supply
- Power supply voltage: 2 AA
- Filtration: OCEANO OK38S00/ON30S00/ON25S00/ON16S00

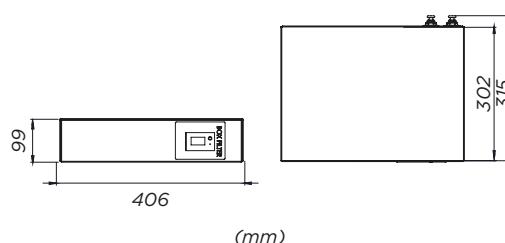

**Accessories included:** 1-way tap cod. OI021999

**Accessories not included:** Inlet stop valve cod. ASV11

## MICRO GAS

**Stainless steel**

**Installation under counter and undersocket**

**Removes bad taste and odours**

**1-way tap included**

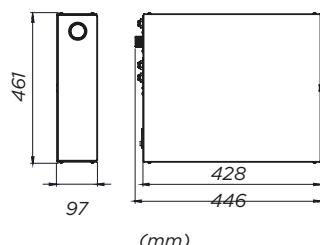

### Features

- It supplies the end user with room temperature carbonated water and filtered natural water.
- MICRO GAS is equipped with an OCEAN filtration stage (ON16) that removes odours and flavours and retains all water impurities.
- The enclosure is made of AISI304SB stainless steel and has very compact dimensions. The appliance can also be installed under the counter, vertically and horizontally.
- It is equipped with a pressure gauge to display the working pressure of the pump.
- Weight: 7 kg
- Power supply: drinking water network
- Supply voltage: 220/240 V - 50 Hz
- Absorption: 1A

# RO PRE-ASSEMBLED KITS DOMESTIC SERIES ECO SLIM

WATE RO

**Reduce total salinity**

**Improve taste and odours**

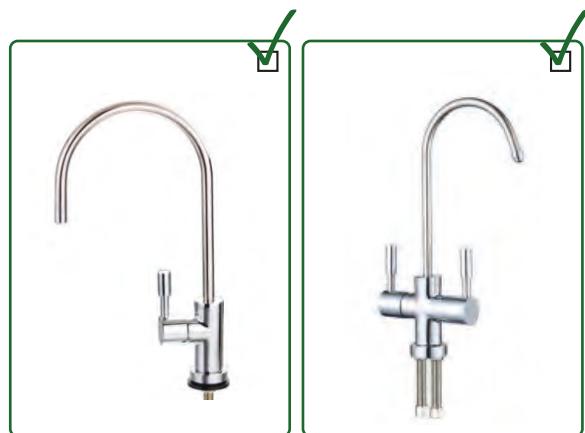

**Produce light water, with low total dissolved solids**

13.0

## Features

- ECO SLIM is an appliance for direct reverse osmosis production, able to improve the chemical characteristics and taste of drinking tap water.
- ECO SLIM is built in AISI304 SB, with tiny dimensions, installable under counter and under socket of the kitchen. The functioning is automatic, managed by a electronic board.
- Power supply 230V 50Hz
- Protection grade IP20
- Water supply 1-6 bar 5-30°C
- Connections IN 8mm, permeate 6mm, drain 6mm
- Max inlet conductivity 1.200 microS/cm
- Mix and total by-pass valve
- Recovery ration 40%
- Dimensions: 97 x 377 x 421 cm
- Power socket C13 with switch, fuse and shucko plug
- Automatic functioning with max pressure switch
- Electronic control with leak detector

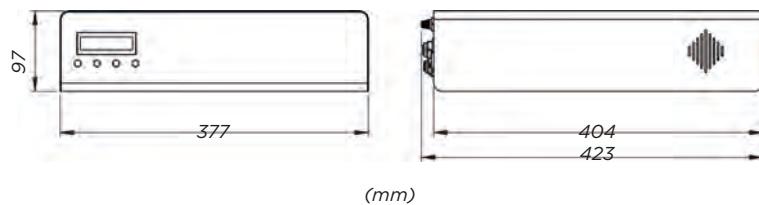

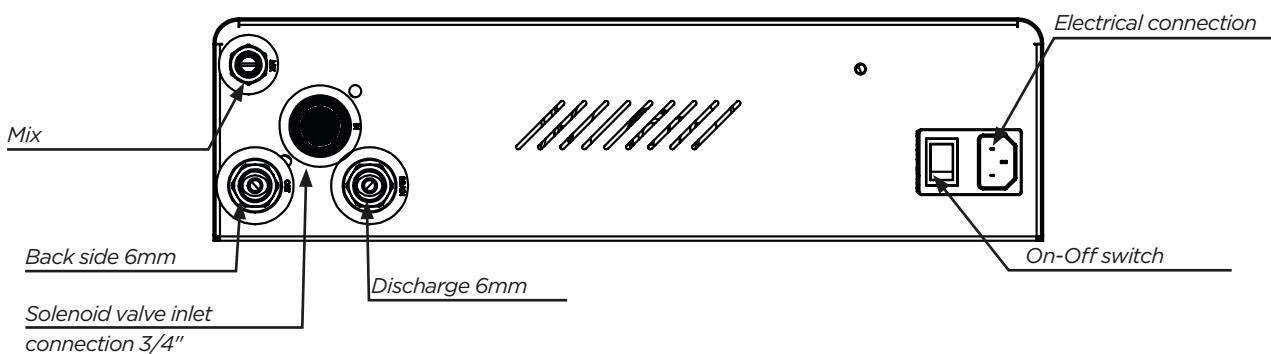

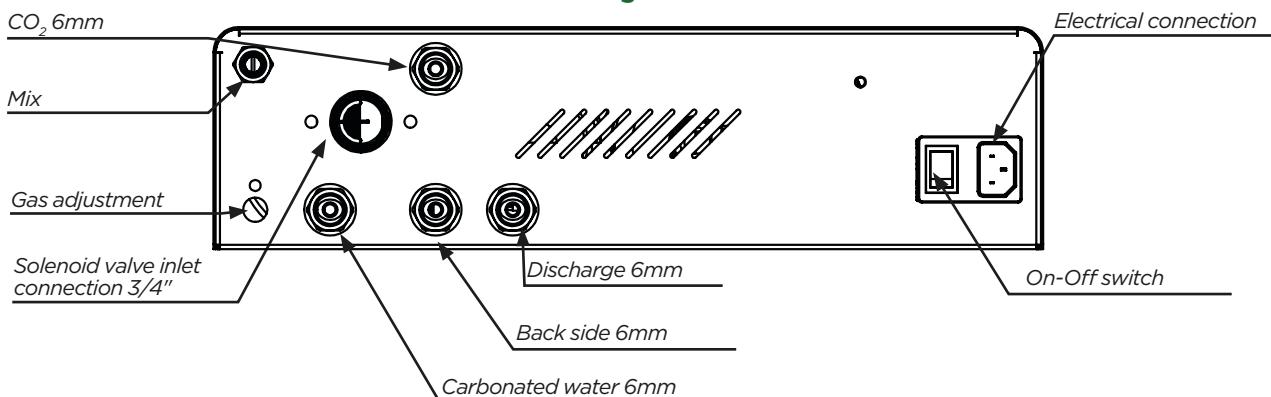

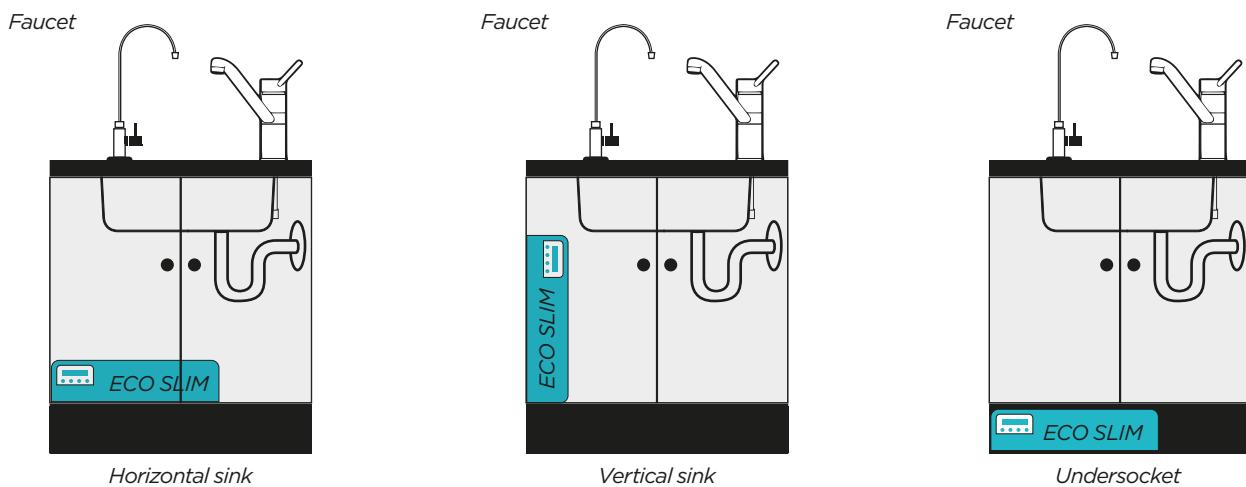

## Accessories included:

- Gooseneck faucet
- Inlet valve 3/8"
- Hoses 8mm, 6mm
- Drain clamp
- 

## Accessories not included in GAS model, to order separately:

- CO<sub>2</sub> cylinder and pressure reducer
- External prefiltre

**RO DIRECT****Reduce total salinity****1-way tap included**

Only for cod. OI20023

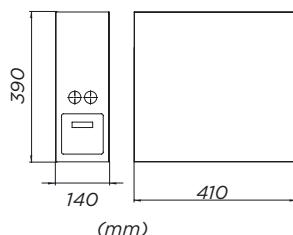

**Features**

- The RO DIRECT equipment is a reverse osmosis plant, with direct production, built inside a skinplate enclosure, capable of refining the organoleptic and chemical characteristics of drinking water by reducing its salt content while guaranteeing safety from a bacteriological point of view.
- It can be installed in both homes and workplaces.
- The equipment is available in two different versions in order to meet the most diverse flow rate requirements.
- The device is equipped with a digital control unit with display, anti-flooding, conductivity reading and alarm.
- RO-DIRECT 90 is equipped with 2 carbon pre-filters code OI023010.

**Accessories included:**

- 1 Chrome-plated tap Long Reach cod. OI022021
- 1 Drainage bracket cod. OI022033
- Fittings and pipes for installation

# RO PRE-ASSEMBLED KITS PROFESSIONAL SERIES RO WASH 180 - 240

**Electronic control with touch screen and digital sensors**

**High productivity in small space**

**H24 functioning with water cooled motor**

## Features

- Directly produced, ductile and versatile reverse osmosis equipment for HoReCa, pharmaceutical, cosmetic and food applications.
- They have a high production of quality osmotic water by means of new Waterline nanotechnology membranes.
- RO Control is the innovative control board with colour touch screen, digital sensors for flow, pressure and conductivity, with automatic calculation of filter exhaustion, recovery rate and rejection rate; ready for remote connection via Wifi or GSM expansion.
- AISI 304 stainless steel housing.
- Mixing valve and total manual by-pass in the event of machine downtime.
- Pre-filtration with standard OCEANO Medium active carbon 5 micron cartridge (GAC or Carbon Block technology) with automatic flushing at filter change controlled by RO Control.

## INLET WATER FEATURES

Inlet water temperature	5/35°C (min-max)
Inlet water pressure	1.5 - 6 bar (min-max)
Inlet water hardness	35°F (max)
Minimum required flow rate	500 l/h

## ELECTRIC FEATURES

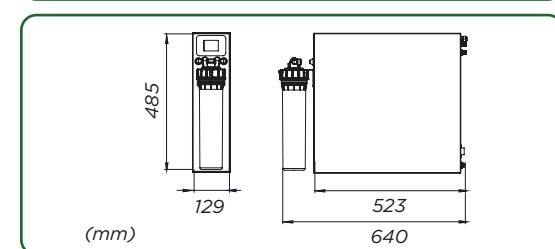

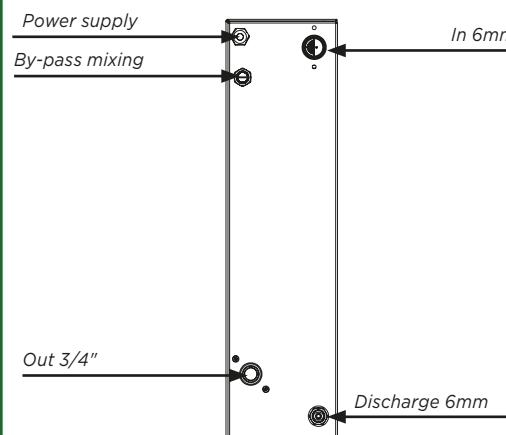

Power supply	Single phase + earth
Voltage	220-240 v
Absorption	1.5 - 3.5 A (min-max)
Frequency	50/60 hz
Power consumption	330-550 w (min-max)
Protection fuse	3,15 t

## Environmental specifications

Max. relative humidity	90%
Environmental temperature	3°-40° C (min-max)

## Connections Back side

## RO WASH 180 W/TANK

**Electronic control with touch screen and digital sensors**

**Integrated tank in small space**

**H24 functioning with water cooled motor**

### Features

- Reverse osmosis equipment with integrated tank designed for professional glasswashers both with and without break tank, capable of delivering 4 litres in 15 seconds.
- It has a high production of quality osmotic water by means of new Waterline nanotechnology membranes.
- RO Control is the innovative control board with colour touch screen, digital sensors for flow, pressure and conductivity, with automatic calculation of filter exhaustion, recovery rate and rejection rate; ready for remote connection via Wifi or GSM expansion.
- AISI 304 stainless steel housing.
- Mixing valve and total manual by-pass in the event of machine downtime.
- Pre-filtration with standard OCEANO Medium active carbon 5 micron cartridge (GAC or Carbon Block technology) with automatic flushing at filter change controlled by RO Control.

### INLET WATER FEATURES

Inlet water temperature	5/35°C (min-max)
Inlet water pressure	1.5 - 6 bar (min-max)
Inlet water hardness	35°F (max)
Minimum required flow rate	450 l/h

### ELECTRIC FEATURES

Power supply	Single phase + earth
Voltage	220-240 v
Absorption	1.5 - 3.5 A (min-max)
Frequency	50/60 hz
Power consumption	330 (min)
Protection fuse	3,15 t

### Environmental specifications

## RO WASH 350

**Electronic control with touch screen and digital sensors**

**High production and integrated 30 liters tank**

**H24 functioning with water cooled motor**

### Features

- RO WASH 350 is a high production reverse osmosis equipment with integrated tank for HoReCa, pharmaceutical, cosmetic and food applications.
- It has a high production of quality osmotic water by means of new Waterline nanotechnology membranes.
- RO Control is the innovative control board with colour touch screen, digital sensors for flow, pressure and conductivity, with automatic calculation of filter exhaustion, recovery rate and rejection rate; ready for remote connection via Wifi or GSM expansion.
- AISI 304 stainless steel housing.
- Mixing valve and total manual by-pass in the event of machine downtime.
- Pre-filtration with 3 OCEANO Medium active carbon 5 micron cartridges as standard (GAC or Carbon Block technology) with automatic flushing at filter change controlled by RO Control.

### INLET WATER FEATURES

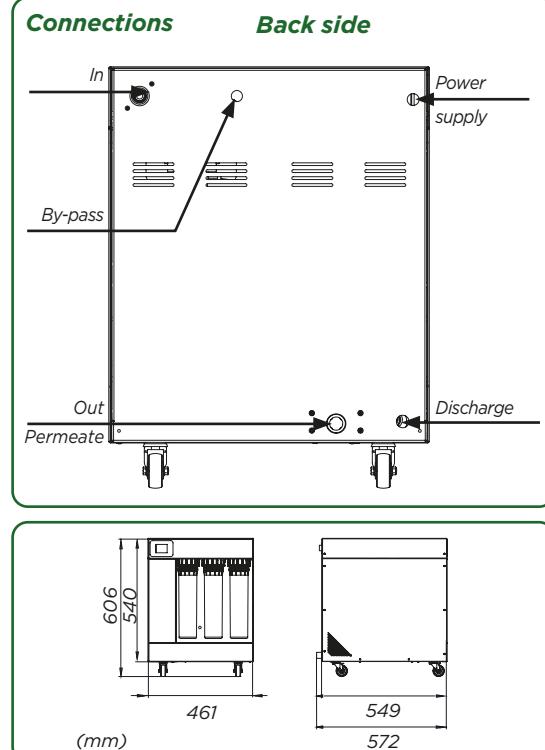

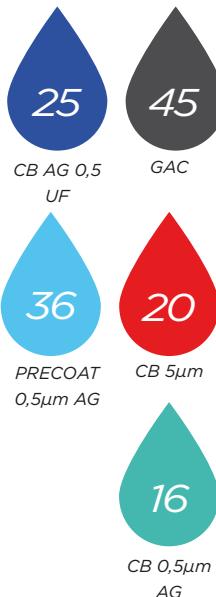

Inlet water temperature	5/35°C (min-max)
Inlet water pressure	1.5 - 6 bar (min-max)
Inlet water hardness	35°F (max)
Minimum required flow rate	1000 l/h

### ELECTRIC FEATURES

Power supply	Single phase + earth
Voltage	220-240 v
Absorption	3.5 A (min-max)
Frequency	50/60 hz
Power consumption	550 W

## MINI OSMOGAS FRESH DRY UNDER

**Osmosis filtration system**

**Compact size**

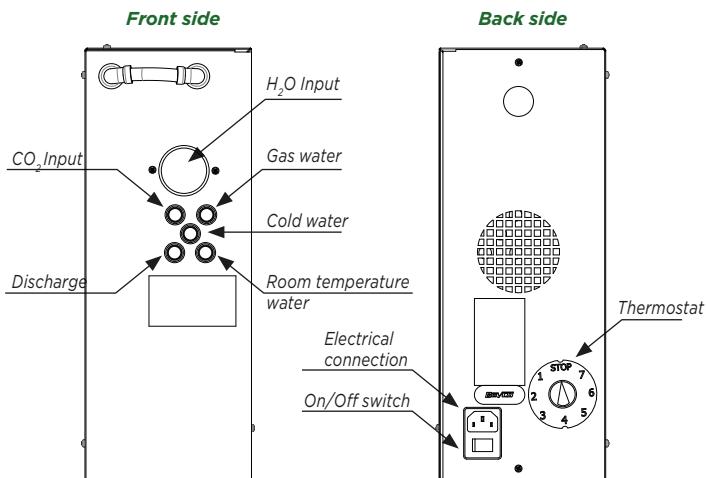

**Dispenses a carafe continuously**

### Features

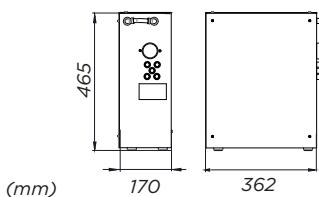

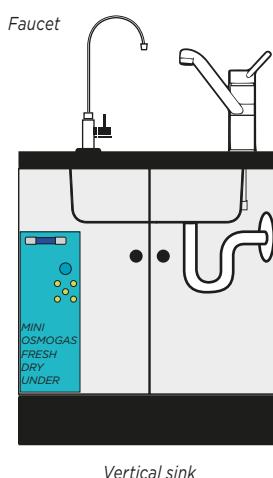

- Under counter dispenser with filtration system that uses a direct reverse osmosis technology, providing osmotic water at room temperature, cold still water and cold sparkling water.
- Dry cooling system is aluminum block. The external housing is white.
- The use of a 400 gallon membrane guarantees a high production of osmotic water.
- Power supply 230V 50Hz
- Power consumption 500W
- Nominal system flow-rate 90 l/h
- Minimum water supply pressure 2 bar
- CO<sub>2</sub> supply pressure 3,5 bar
- Max inlet water temperature 20 °C
- Max working pressure 9 bar
- Water supply 2-6 bar 5-30°C

# INDUSTRIAL SERIES

## WRO SERIES

WATE<sup>W</sup> RO<sup>T</sup>

The WRO series plants are compact and pre-assembled on a stainless steel tubular frame, complete with double cartridge pre-filtration inside plastic filter housings, a high-pressure brass vane pump, a minimum pressure switch and an electrical panel for fully automatic operation controlled by a magnetic float level probe.

### VERSION WITH RO LED CONTROL UNIT

Code	Description	€

CAR3009C/GOLD-X	Inline filter - Block carbon with coconut - 2"x10" - 5μ	
CAR3009C/GOLD-QF-X	Inline filter - Block carbon with coconut - 2"x10" - 5μ-QF 1/4"	
CAR3900-100%	Inline filter vegetal coconut carbon in block sintered 2"x10" 0.5μ	
CAR3026/GOLD-X	Inline filter - Block carbon with coconut - 2½"x12" - 5μ	
OI023029	IN LINE filter Carbon Block extruded d.63 L=12" att.1/4	
CAR3026/GOLD-QF3/8	Inline filter - Block carbon with coconut - QF connections 3/8"	
CAR3011C-X	Inline filter - Block carbon - 2½"x12" - 10μ-1/4"	

### DOUBLE O-RING CARTRIDGES REPLACEMENT OSMOSIS

Code	Description	€
CX5027521	Extruded Carbon Block cartridge Ø48 h.265	
CX5027520	Extruded Carbon Block cartridge Ø48 h.270 for Culligan	
PP4827521	Melt Blown PP Cartridge 5m Ø48 h 265	
PP4827520	Melt Blown PP Cartridge 5m d.48 h 270 for Culligan	

## ULTRAFILTRAZIONE IN LINEA UF LENGTH 10"

### Technical characteristics

- Nominal filtration: 0.08 µm
- Maximum flow rate: 4 l/min.
- Maximum pressure: 4 bar
- Maximum temperature: 40° C
- Autonomy: 1500 l
- Inlet/Outlet: 1/4"
- Dimensions: Ø 2" x 10" L

Code	Description	€
OI023044	Inline ultrafiltration system 1/4" female connection	

## UF LENGTH 12"

### Technical characteristics

- Size: 2" 1/2 x12"
- In/Out connections 1/4 stem
- Capacity: 3.8 l/min = 3 bar
- Pressure 0.7-5 bar
- Duration: 2500 gal (9500 l)
- Bacteria reduction 99%
- Packaging: 25 pcs.
- Note: no containers required

NEW

Code	Description	€
CAR9000X	Inline Filter - Ultrafiltration Membrane - 2½"x12"	

## UF LENGTH 6"

In-line ultrafiltration cartridge/membrane.

### Technical characteristics

- Membrane material: polysulfone
- Filtration: less than 0.04 µm
- Water flow: 50 l/min. per m2
- Pressure: 0.5 - 4 bar
- Ultrafiltration flow rate: approx. 8 l/min at 2.5 bar

Code	Description	€
OI023034	Inline ultrafiltration system 1/4" spigot connection	

## SSU ULTRAFILTRATION

### Technical characteristics

- Membrane material: polysulfone
- Max inlet pressure: 6 bar
- Max inlet temperature: 50°C
- Connection: threaded 1/2"

Code	Max inlet pressure bar	Max temperature inlet °C	Internal filtering surface m2	Material	Flow rate l/min	Connections
OI023052	6	50 °C	2,8	Polysulfone	18,0	1/2"
OI023053	6	50 °C	1,0	Polysulfone	9,0	1/2"

Code	Description	€
OI023052	Single stage ultrafiltration M03501 SSU 28	
OI023053	Single stage ultrafiltration M90016 SSU DOME	

## INLINE FILTER SYSTEMS

### KIT COMPLETO TRASPARENTE

Code	Description	€
OI023030	In-line filter Ø63 length 12" connections 1/4" Female transparent with Carbon Block Ag 0.3µm cartridge	
OI023130	In-line filter Ø63 length 12" connections 1/4" Female transparent with extruded Carbon Block cartridge 5µm	
OI023230	In-line filter Ø63 length 12" connections 1/4" Female transparent with Melt Blown PP 5µm cartridge	
OI023038	Refillable in-line post-filter remineralizing / neutralizing	

### COMPLETE WHITE KIT

Code	Description	€
OI023032	Inline filter Ø63 length 12" connections 1/4" Female white with Carbon Block Ag 0.3µm cartridge	
OI023132	Inline filter Ø63 length 12" connections 1/4" Female white with extruded Carbon Block cartridge 5µm	
OI023232	Inline filter Ø63 length 12" connections 1/4" Female white with Melt Blown cartridge in PP 5µm	

### REPLACEMENT CARTRIDGES IN LINE

Code	Description	€
CA90180	Ag Carbon Block Cartridge 0.3µm Ø50 threaded connection 1/4" Male	
PP90180	PP Melt Blown Cartridge 5µm Ø50 threaded connection 1/4" Male	
CX90180	Extruded Carbon Block Cartridge 5µm Ø50 threaded connection 1/4" Male	

### CONTAINER

Code	Description	€
OI023022	Empty plastic container AS transparent Ø50 length 10" connections 1/4" Female	
OI023024	Empty plastic container PP white Ø50 length 10" connections 1/4" Female	
OI023026	Empty plastic container AS transparent Ø63 length 12" connections 1/4" Female for IN-LINE cartridges Ø50	
OI023028	Empty plastic container PP white Ø63 length 12" connections 1/4" for IN-LINE cartridges Ø50	

## LITRE COUNTER DIGIFLOW 8000T-L

### Technical characteristics

- METERS/TIME/FLOW DigiFlow 8000T-L, equipped with LCD display.
- Programmable from 500 to 99,500 liters and from 30 to 720 days.
- Equipped with instant detection of the flow rate of water passage. In/out 3/8" NPT.
- The LCD display signals when the limit of the filter's working capacity is reached.
- To be placed at the filter outlet as it is sensitive to the presence of coarse particles in the water.
- 2 AAA alkaline batteries are required with a duration of one year. If the batteries are flat, the last processed data will be automatically stored inside the instrument.

Code	Description	€
DF086L	DigiFlow 8000T-L Flow-Time-Liter Counter	

## BLOCK COUNTER

### Technical characteristics

- This unique and patented system for measuring the volume of water passed automatically stops the flow once the set value has been reached.
- Ideal for application in systems where filter changes are essential for the correct functioning of the system or for current regulations relating to drinking water systems.
- Maximum capacity: 6000 l
- Working pressure: min 1 bar, max. 8.7 bar
- in/out: 1/4" threaded connection

Code	Description	€
01022038/C	WATERMINDER - CA Automatic Block Counter	

## PROFESSIONAL FLOW COUNTER BOX

### Technical characteristics

- Professional mechanical counter, non-resettable, wall/panel mountable with 3/8" quick couplings.

Code	Description	€
CTLCMP	Liter counter box / Water flow meter	

## IN-LINE ULTRAFILTRATION PLASTIC CLIPS FOR O/I

Code	Description	€
OI023000	Single Ø 50 white PVC bracket for in-line filters	
OI023001	Single bracket Ø 63 white PVC support for vessel 1812 and in-line filters	
OI023009	Single white PVC bracket Ø 90 for vessel 3012 - 3"	
OI023007	White PVC double Ø 50-50 bracket for in-line filters	
OI023002	White PVC double bracket Ø 50-63 for vessel 1812 and in-line filters	
OI023003	White PVC double bracket Ø 63-63 for vessel 1812 and in-line filters	
OI023004	White PVC bracket for shut-off S3000B	

## SHEET METAL BRACKETS

Code	Description	€
CP100106	White painted double bracket	
CP100109	White painted triple bracket	
OI023008	White painted triple bracket	

## SHUT-OFF VALVES

Code	Description	€
OI022034	Automatic shut-off valve for O/I complete with Jaco fitting for pipe Ø 6 mm	
OI022035	Automatic shut-off valve for O/I complete with quick-connect fitting for Ø 1/4" pipe	

## FLOW RESTRICTOR

### CARTRIDGE

Code	Description	€
OI024041	Non-return valve cartridge without fitting	
OI024047	Flow restrictor cartridge 50 gpd yellow without fitting	
OI024043	Flow restrictor cartridge 70 gpd blue without fitting	
OI024048	Flow restrictor cartridge 100 gpd red without fitting	
OI024050	Flow restrictor cartridge 200 gpd brown without fitting	

### INLINE FLOW RESTRICTOR

Code	Description	€
OI024052	Inline flow-restrictor hose diameter 1/4" 350 ml/min	
OI024053	Inline flow-restrictor 1/4" hose diameter 800 ml/min	
CA-FR5030-Q	Flow regulator-300ml- 1/4"QF

## BOOSTER PUMPS

### LOW VOLTAGE PUMPS

Code	Description	€
A1141	BOOSTER 5228 24 VDC pump complete with transformer flow rate 1.2 l/min	
A1142CE	230V-24V transformer for BOOSTER 5228 pumps	

### 230V PUMPS

Code	Description	€
OI022059	BOOSTER-45-2200-A12 pump 220VAC 50/60 Hz	
910007	Pompa BOOSTER IPM 6 L/M 5300	

## PRESSURE SWITCHES

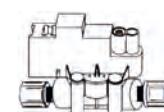

### OF MINIMUM

Code	Description	€
A1061	Pressure switch in shunt 1/4" hose connection	
900002	Pressure switch no tar. 0.5 bar diff. 0.3 Bar	

### IN PRINCIPLE

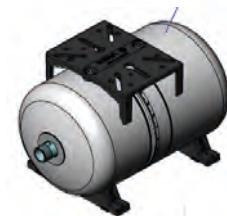

Code	Description	€
A1052	2-contact pressure switch, 1/4" hose with hose connector	
A1062	2-contact passage pressure switch, 1/4" hose connection	
A1068	Maximum pressure switch diameter 63 differential 0.5/0.8 bar calibrated 2.0 bar	
PM/12X	INOX single-phase pressure switch 3-12 bar 1/4" female connection	

## STORAGE TANKS

### PAINTED STEEL TANKS

Code	Description	€
OI025056	NSF-certified non-inspectable white painted steel storage buffer tank for Osmosis Plants, capacity 14 gallons	
900028	Oval expansion vessel 7.5 lt 10 bar	
900039	Exp. vase vert. c-bracket 19 lt att. 3/4" stainless steel - 10 bar diaphragm	

### PLASTIC TANKS

Code	Description	€
OI025052	Food grade plastic OIL storage tank.with.white 2 g 8LT CAR5006	
OI025055	Storage tank for Osmosis Plants in food grade plastic, white, 3 gallons	
OI025053	Storage tank for Osmosis Plants in food grade plastic, white, 5 gallons	
900027	Expansion tank 50 l 10 bar	

### TAP FOR TANKS

Code	Description	€
BV-100	Tank shut-off ball valve 1/4" (1/4" pipe x 1/4" female thread)	

## SOLENOID VALVES

### ACETAL RESIN

Code	Description	€
136002230V	2-way solenoid valve NC Ø 3/4" M - 1/4" M 230 Vac with faston connectors	
3105BC24DC	2-way solenoid valve NC Mini series Ø 1/4" F-F 24 Vdc with faston connectors	
3105BC24AC	2-way solenoid valve NC Mini series Ø 1/4" F-F 24 Vac with faston connectors	
4105BC230V	2-way solenoid valve NC Ø 3/8" F-F 230 Vac with faston connectors	
PR31A	70° connector wired with 600 mm cable for solenoid valves with faston connectors	
900003	Solenoid Valve 3/4M - Tail 10mm NC 230V	
900035	EV 230V NC faston 3-4 10mm plug C-Flowmeter	

### BRACKETS

Code	Description	€
900019	Solenoid valve bracket for 900003/900035	

### DIGITAL FLOWMETERS

Code	Description	€
900041	Digital flowmeter 1/2" in-line connection	
OI201814	Tangential flow meter 1/2" connection	

### BRASS

Code	Description	€
OI201930	2-way solenoid valve NC - Ø 1/4" complete with connector and coil -230V	
OI201932	2-way solenoid valve NC - Ø 1/4" complete with connector and coil -24V	
OI201935	2-way solenoid valve NC - Ø 3/8" complete with connector and coil -230V	
OI201937	2-way solenoid valve NC - Ø 3/8" complete with connector and coil -24V	
OI201940	2-way solenoid valve NC - Ø 1/2" complete with connector and coil -230V	
OI201942	2-way solenoid valve NC - Ø 1/2" complete with connector and coil -24V	
OI201945	2-way solenoid valve NC - Ø 3/4" complete with connector and coil -230V	
OI201947	2-way solenoid valve NC - Ø 3/4" complete with connector and coil -24V	
OI201950	2-way solenoid valve NC - Ø 1" complete with connector and coil -230V	
OI201952	2-way solenoid valve NC - Ø 1" complete with connector and coil -24V	
OI201955	2-way solenoid valve NC - Ø 1"1/4 complete with connector and coil -230V	
OI201957	2-way solenoid valve NC - Ø 1"1/4 complete with connector and coil -24V	
OI201960	2-way solenoid valve NC - Ø 1"1/2 complete with connector and coil -230V	
OI201962	2-way solenoid valve NC - Ø 1"1/2 complete with connector and coil -24V	
OI201965	2-way solenoid valve NC - Ø 2" complete with connector and coil -230V	
OI201967	2-wayNC solenoid valve - Ø 2" complete with connector and coil -24V	

## NEEDLE VALVES

Code	Description	€
OI201905	AISI 316 stainless steel needle valve - Ø 3/8"	
OI201910	AISI 316 stainless steel needle valve - Ø 1/2"	
OI201915	AISI 316 stainless steel needle valve - Ø 3/4"	
OI201920	AISI 316 stainless steel needle valve - Ø 1"

**BRASS BODY WITH MAGNETIC DRIVE BY-PASS**

Code	Description	€
PO201820/1	PO 200 l/h high-pressure brass vane pump with magnetic drive by-pass without coupling	
PO201850	Magnetic coupling for magnetic drive pump	

**ELECTRIC MOTORS;****SELF-VENTILATING ELECTRIC MOTOR WITH DIRECT COUPLING**

Code	Description	€
MO201838	Self-ventilating electric motor with direct connection 220V-50 Hz, 150W (1/5 Hp)	
MO201840	Self-ventilating electric motor with direct connection 220V-50 Hz, 245W (1/3 Hp)	
MO201843	Self-ventilating electric motor with direct connection 220V-50 Hz, 560W (3/4 Hp)	
MO201837	Electric motor without electrical box 220V-50 Hz, 245W (spare part for RODIRECT)	
MO201839/A	Electric motor coupl. Direct 180 W wired s/headset (replacement for ECODIRECT)	
MO201847	Electric motor C042202 180 W water-cooled	
910000	180W 230V RPM motor no fan no bracket (ecoslim spare)	
910003	Asynchronous motor 280W 220-240V 50Hz water-cooled	
910004	Asynchronous motor 180W ipc no fan no bracket	

**ELECTRIC MOTOR FOR MAGNETIC DRIVE PUMPS**

Code	Description	€
MO201544	Electric motor for magnetic drive pump 230V-50Hz, 90W	

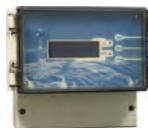

**SELF-VENTILATING ELECTRIC MOTOR**

Code	Description	€
MO201548	Self-ventilating electric motor GR80 B3/B14 220V-50 Hz, 750W (1 Hp)	

**JOINTS AND LANTERNS**

Code	Description	€
MO201553	Motor coupling MO201837	
MO201554	Joint B 14 - M71	
MO201556	M71 lantern assembly	
MO201560	Joint B14 - M80	
MO201562	M80 lantern assembly	

## CONTROL UNITS FOR RO

Code	Description	€
EASY-RO	Easy RO control unit with graphic display, complete with CCK 5 probe, enables the management of small industrial osmosis plants. Complete with digital conductivity meter 0 - 2,000 µS and membrane flushing device	
OI20015/1	WLRO control unit complete with anti-flooding probe. Operates direct osmosis systems (point-of-use). Detects conductivity in µs or mg/l. Backlit display. Timed filter replacement alarm. Installed on RO DIRECT	
RO-D	RO DISPLAY control unit complete with conductivity and anti-flooding probe Suitable for small/medium osmosis plants, displays conductivity and operating hours. Dimensions (h. 125 x W.175 x D.80 )mm	
RO-L	RO LED control unit complete with conductivity and anti-flooding probe. Suitable for small/medium osmosis plants. Displays water quality through 3 leds+1 alarm indicator. Dimensions (h.125 x w. 175 x d.80)mm	
ROHP	High Power panel for RO osmosis plants	
ROSHP	Super High Power panel for osmosis plants	

## ACCESSORIES FOR CONTROL UNITS

Code	Description	€
OI20009	Conductivity probe K=5, Ø 3/8" without cable	
ARI00500/2	Cable with Jack for conductivity probe/chlorine-producing electrode	

# PLASTIC PIPES

## FLEXIBLE PIPES

### JOHN GUEST POLYETHYLENE PIPES

The John Guest range of plastic pipes is made of Linear Low Density Polyethylene for cold water applications. This series of hoses offers applicability within a wide range of temperatures and pressures, excellent chemical compatibility, being made from non-contaminating material. Furthermore, these are certified by the American NSF (NSF51 and NSF61 specifications), the British drinking water authority WRAS. The raw material is FDA approved.

# RAPID ANALYSIS KITS

## IPT ANALYSIS KIT

Code	Description	€
HI3810	Dissolved oxygen titre analysis kit	
HI3810-100	Spare reagent kit for 110 dissolved oxygen tests	
KA300313	Hydrogen peroxide analysis kit (0 - 25 ppm)	
KA001001	Acidity kit m tit.	
KA001002	Kit alkalinity tit. p. ed m	
KA001003	Boiler alkalinity kit t. p and m (1 epm)	
KA001004	Alkalinity kit M tit. (1 °f)	
KA001005	Alkalinity kit p tit. (1 epm)	
KA001006	Ammonia kit col. (Nessler)	
KA001007	Carbon dioxide kit tit.	
KA001008	Strong anion tit. kit (to be used in conjunction with KA001001)	
KA001009	Football kit tit. (1 °f)	
KA001010	Kit o-tol. col. 0,1 - 1,5 ppm	
KA001011	DPD chlorine kit col. 0,1 - 1,5 ppm	
KA001012	Chloride titration kit (1 °f)	
KA001013	Chrome kit col. 0,05 - 1 ppm	
KA001014	Demineralisation kit col.	
KA001015	Titanium hardness kit	
KA001016	Iron kit col. 0,05 - 15 ppm	
KA001017	Phosphate kit col. (1 - 20 ppm)	
KA001018	Hydrazine kit col. 0,1 - 1,5 ppm	
KA001019	Nitrite kit col.	
KA001020	pH 0 - 5 colourimetric kit	
KA001021	pH kit 6.8 - 8.4 colorimetric	
KA001022	pH 1 - 11 Colorimetric Kit	
KA001024	Kit silica col.	
KA001025	Sulphite kit 2 ppm tit.	
KA001025.1	Sulphite kit 10 ppm tit.	
KA001026	Total alkalinity kit tit.	
KA001027	Boiler hardness kit tit. (1 °f)	
KA001028	Nitrate kit col.	
KA001029	Hardness precipitation kit	
KA001030	Phosphate kit col. (5 - 100 ppm)	
KA001031	Colorimetric chloride kit	
KA001032	Residual hardness kit col. (0.5 - 3 ppm CaCO <sub>3</sub> )	
KA001035	Molybdenum titration kit	
KA001039	Kit manganese col.	
KA006261	Soap Solution Kit 6 x 250	
KA300314	Arsenic analysis kit 0.005-0.5 mg/l (1x100 tests)	

## CHEAP TEST KITS

Code	Description	€
KA005001	Hardness kit 2 fl. single reagent 1°f tit. in blister pack	
KA005006	Hardness kit 1 fl. single reagent 1°f tit. in blister pack	
KA005010	Col. swimming pool kit (o-tol. chlorine and pH) in blister pack	
KA005011	Residual titration hardness kit in blister pack	
KA005030	Colorimetric pH 5 - 9.5 kit in blister pack	
KA005007	Hardness kit 1 fl. single reagent 1°Dh tit. in blister pack	

## KIT KIT

Code	Description	€
KA002001	Water analysis kit	
KA002002	Basic boiler kit	
KA002004	Simple boiler kit	
KA002006	Swimming pool kit	

## TITRATION REAGENTS

Code	Description	€
KA003203	Kick Kit A x 6 (to be used in conjunction with KA003001)	
KA003207	Chloride kit tit. A x 6	
KA003208	Chloride kit tit. B x 6	
KA003221	Sulphite Kit A x 6	
KA003222	Sulphite Kit B x 6	
KA003247	Hardness kit A x 6 (for boilers)	
KA003250	Kit precipitated dur. A x 6	
KA003251	Kit precipitated dur. B x 6	
KA003252	Hardness precipitation kit 1 x 250 A + 1 x 250 B	
KA003253	Spare reagent A prec. hardness 2 x 250	
KA003254	Spare reagent B pre-hardness 2 x 250	
KA003260	Soap Solution Kit 6 x 25	
KA003263	Molybdenum tit. A x 6	
KA003265	Molybdenum tit. B x 6	

## INDICATOR SPARE PARTS 6 BOTTLES

Code	Description	€
KA003001	Replacement calcium polv. indicator (to be used in conjunction with KA003001)	
KA003002	Spare hardness indicator conf. 6 X 15 ml.	
KA003003	Spare indicator m conf. 6 X 15 ml.	
KA003004	Spare indicator p conf. 6 X 15 ml.	
KA003005	Replacement pH indicator 0 - 5 pack. 6 X 25 ml.	
KA003006	Replacement pH indicator 6.8 - 8.4 conf. 6 X 25 ml.	
KA003007	Replacement pH indicator 1 - 11 pack. 6 X 25 ml.	
KA003008	Replacement pH indicator 6.8 - 8.4 conf. 6 X 15 ml.

#### CONDUCTIVITY METERS

Code	Description	€
HI98129	COMBO - Pocket instrument for measuring pH - Conductivity - TDS - Temperature, automatic calibration, replaceable pH electrode	
HI98301	DiST 1 - Pocket instrument for TDS measurement scale 0 - 1999 ppm manual calibration, replaceable probe (TDS conversion factor 0.5)	
HI98302	DiST 2 - Pocket instrument for measuring TDS scale 0 - 10.00 ppt (g/l) manual calibration, replaceable probe	
HI98303	DiST 3 - Pocket instrument for Conductivity measurement scale 0 - 1999 µS/cm manual calibration, replaceable probe	
HI98304	DiST 4 - Pocket instrument for Conductivity measurement scale 0 - 1999 µS/cm manual calibration, replaceable probe	
HI98309	UPW - Pocket instrument for measuring Conductivity in ultrapure water scale 0.000 - 1.999 µS/cm (resolution 0.001 µS/cm)	
HI98311	Dist 5 - Watertight pocket instrument for measuring Conductivity scale 0 - 3999 µS/cm - TDS - Temperature, automatic calibration, replaceable probe	
HI98312	Dist 6 - Waterproof pocket instrument for measuring Conductivity scale 0 - 20.00 mS/cm - TDS - Temperature, automatic calibration, replaceable probe	
OI022080	TDS METER - Pocket instrument for measuring TDS scale 10 - 1990 ppm manual calibration	

#### PH-METERS

Code	Description	€
HI98103	CHECKER - Pocket instrument for pH measurement scale 0.00 - 14.00 , manual calibration, replaceable electrode	
HI98100	CHECKER - Pocket instrument for pH measurement scale 0.0 - 14.0, automatic calibration, replaceable electrode	
HI98107	pHep - Pocket instrument for pH measurement scale 0.0 - 14.0 , manual 2-point calibration	
HI98127	pHep 4 - Watertight pocket instrument for temperature measurement - pH scale -2.0 - 16.0, automatic calibration	

#### REDOXIMETERS

Code	Description	€
HI98120	Watertight pocket instrument for measuring Redox potential - temperature, replaceable ORP electrode	
HI98201	Watertight pocket instrument for measuring Redox potential - temperature, replaceable ORP electrode	

## DIGITAL THERMOMETER

Code	Description	€
HI98509	Checktemp 1 C - Digital thermometer scale -50.0 +150.0 °C complete with steel probe and 1 m cable	

## ORIGINAL

Code	Description	€
HI73127	Replacement pH electrode for HI98127	

## CONDUCTIVITY METERS

Code	Description	€
BLUCOND	Conductivity meter with display set point 10/400 µS complete	

## CALIBRATION SOLUTION

Code	Description	€
HI70004P	Calibration Solution pH 4.01 - 25 sachets 20 ml	
HI70007P	Calibration Solution pH 7.01 - 25 sachets 20 ml	
HI70010P	Calibration Solution pH 10.01 - 25 sachets 20 ml	
HI70031P	Conductivity calibration solution 1413 µS - 25 sachets 20 ml	
HI70032P	TDS 1382 ppm calibration solution - 25 x 20 ml sachets	
HI70038P	Calibration solution TDS 6.44 ppt - 25 x 20 ml sachets	
HI7004L	Calibration Solution pH 4.01 500 ml bottle	
HI7007L	Calibration Solution pH 7.01 500 ml bottle	
HI7009L	Calibration Solution pH 9.18 500 ml bottle	
HI7010L	Calibration Solution pH 10.01 500 ml bottle	
HI77400P	Solutions pH 4 and 7, pack of 5+5 20 ml sachets	

## DOSING PUMPS

### DLX SERIES

#### DLX-VFT/MBB DOSING PUMP

Proportional dosing pump Operating functions Manual: manual adjustment of flow rate from 0 to 100%. 1xn: for each pulse received the pump delivers the number of injections selected by the operator. 1xn(M): for each impulse received, the pump delivers the number of injections selected by the operator. If one or more pulses occur during the dosing phase, these are taken into account and the pump delivers a number of injections equal to the product between the received contacts and the selected digit 1:n the pump only delivers an injection of additive when it has detected a number of pulses (contacts) corresponding to the selected digit. TTL: Proportional through input pulses.

Available in a version without flow sensor (VFT/MB).

Dosing pump for wall (DLX) or base mounting (DLXB).

Code	Description	€
ET10373	DLX-VFT/MBB pump 1 l/h - 15 bar; 2 l/h - 10 bar; 3 l/h - 5 bar	
ET10374/S	DLX-VFT/MBB pump 1 l/h - 15 bar; 2 l/h - 10 bar; 3 l/h - 5 bar with automatic bleed	
ET10375	DLX-VFT/MBB pump 5 l/h - 7 bar; 6 l/h - 5 bar; 8 l/h - 2 bar	
ET10376	DLX-VFT/MBB pump 8 l/h - 10 bar; 10 l/h - 7 bar; 12 l/h - 3 bar	
ET10334	DLX-VFT/MBB pump 15 l/h - 4 bar	
ET10335	DLX-VFT/MBB pump 20 l/h - 3 bar	

#### DLX-PH-RX-CL DOSING PUMP

Dosing pump with built-in instrument for controlling and adjusting pH, RX(mV) and Chlorine (ppm).

- Backlit LCD display
- ON/OFF operation • proportional
- Measuring range 0÷14pH; -1000mV ÷ +1400mV; 0÷20ppm output 4÷20mA
- Input from pH electrode, RX (10 Tera Ohm)
- Probe gain adjustment 40÷80 mV/pH
- Manual/automatic temperature compensation 0÷100°C
- Set point hysteresis programming • Set point delay programming
- Measurement resolution: 0.01pH; ±1mV; 0.1ppm; 0.1°C
- Dosing pump for wall (DLX) or base mounting (DLXB)
- Plastic case; IP 65 protection

Features vary depending on the model.

Code	Description	€
ET10525	DLX-pH-Rx-Cl pump with built-in instrument 5 l/h - 7 bar	

## PKX SERIES

### DOSING PUMP PKX MA/A

The new range of electromagnetic dosing pumps is characterised by its ease of use, high reliability and small overall dimensions. Thanks to its features and versatility, the PKX range is the ideal equipment for dosing chemicals in many sectors including: swimming pools, car washes, industrial water treatment, detergents, etc.

Dosing pump for wall (DLX) or base mounting (DLXB)

#### PKX MA-A & MA-AL

The flow rate is adjusted by varying the frequency, using a knob with a 0-100% scale. The MA-AL version also incorporates the provision for level control. The equipment is equipped with an on/off switch

#### PKX FT

Pump with proportional dosing to a remote voltage-free input signal (e.g. pulse counter). The proportionality can be of the 1:1 (F) or time (T) type, adjustable via a knob from 0 to 60 seconds. A button selects F or T mode.

Code	Description	€
ET10380	Pump PKX-MA/A 1 l/h - 5 bar	
ET10380L	Pump PKX-MA/AL 1 l/h - 5 bar with level probe arrangement	
ET10380FT	Pump PKX-FT/A 1 l/h - 5 bar for meter and level probe preparation	
ET10385	Pump PKX-MA/A 2 l/h - 6 bar	
ET10385L	PKX-MA/AL pump 2 l/h - 6 bar with level probe arrangement	
ET10385FT	Pump PKX-FT/A 2 l/h - 6 bar for meter and level probe preparation	
ET10390	Pump PKX-MA/A 5 l/h - 5 bar	
ET10390L	PKX-MA/AL pump 5 l/h - 5 bar with level probe arrangement	
ET10390FT	PKX-FT/A pump 5 l/h - 5 bar for meter and level probe preparation	

## ACCESSORIES

### PUMP CABLES

Code	Description	€
2.105.005	Coaxial cable for electrodes length 9 m complete with BNC and connector	
2.105.007	Coaxial cable for electrodes length 15 m complete with BNC and connector	
2.105.037	Double cable for proportional pumps (2m + 2m)	

## ELECTRODES

Code	Description	€
1ELT.005	Plastic pH electrode complete with 5 m cable	
1ELT.006	Plastic pH electrode with screw connection without cable	
1ELT.011	Plastic electrode for Redox complete with 5 m cable	
1ELT.012	Plastic electrode for Redox with screw connection without cable	

## BUFFER SOLUTIONS

### 50ML BOTTLES

Code	Description	€
20400598	Ph-4 buffer solution	
20400578	Ph-7 buffer solution	
20400579	Ph-9 buffer solution	
20400580	Buffer solution RX 468 mV	

## PROBE HOLDER

Code	Description	€
2143.001	In-line pvc electrode holder for piping coupl. 1/2-GM	
DPS0001601	Inline stainless steel electrode holder for coupl. pipes 1/2-GM	
2143.002	Monotubular pvc immersion electrode holder length 0.5 m	
2143.003	Monotubular pvc immersion electrode holder length 1 m	
2143.004	Monotubular pvc immersion electrode holder length 1.5 m (1.5 m)	
2.PRS.001	Flow electrode holder for max. 2 electrodes	

## LEVEL PROBES

Code	Description	€
ET10397SL	Level probe with connector and fixing bracket	
1ACS.001	Filter fixing bracket - level probe	

## ORIGINAL

## PROBE HOLDER

Code	Description	€
ET2083030	Pump housing 2-15 l/h, for DLX(B) also 1 l/h, PP FPM - Viton	
ET2082702	Pump housing with automatic bleeding 2-15 l - Viton	
ET2083148	Pump housing 20 l/h PP FPM - Viton	
ET2084001	Standard PTFE membrane	
ET2142001	PP filter with FPM foot valve up to 20 l/h	
ET2144009	Viton cylinder injection valve	
ET2061002	Standard kit viton valve	
ET2061005	Standard EPDM valve kit	
ET4144016	Viton lip valve TGL	
ET0002703	Silicone lip valve + valve pusher kit 20 pcs.	
ET4147001	Pusher valve	
ET0000101	Manual purge valve kit	
ETKRA0005701	Connection kit + Ring + O-ring PP FPM (20 pcs.)	

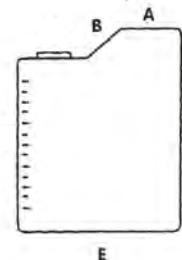

# PLASTIC TANKS

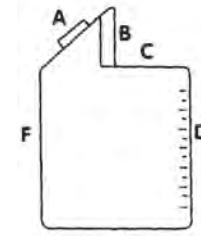

## POLYETHYLENE TANKS

**Code**      **Description**      **€**

# COUNTERS

## PULSE COUNTERS

### THREADED/FLANGED

Turbine counters with reed-type pulse emitter. The threaded version is supplied complete with a pair of nozzles.

Water temperature 30°C

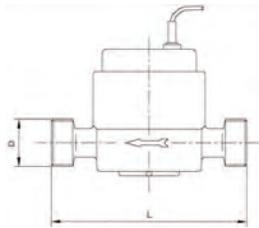

Operating pressure: 16 Bar

#### STANDARD

Code	Description	€
1.CNT.028	Pulse lance counter 1/2" K 0.25	
1.CNT.086	Pulse counter 3/4" connections K 0.25	
1.CNT.087	Pulse counter 3/4" K 1 connections

FV40048	FRP 4" vessel plug SP 300/450PSI Side-Port 1/2 "Rc ISO 7/1
FV40050/1	FRP 4" vessel cap EP 300/450PSI 3/4" x 1/2 "Rc ISO 7/1
FV40050	FRP 4" 300/450 psi vessel cap 3/4" x 1/2" NPT
FV40054	FRP O-ring large for cap 4" (90x5.3)
FV40056	FRP M/F adapter for 4" cap (4021)
FV40058	FRP Steel Segment Block 4" (4011)
FV40060	FRP O-ring small for cap 4" (17x2.65)
FV40062	FRP O-ring for M/F adapter for 4" cap (19x2.65)
FV40064	FRP Stainless steel band for vessel 4" (4008)
FV40066	FRP Screw M8x60 for tie rod
FV40068	FRP Saddle for vessel 4" -4010
FV40070	FRP T appo for vessel 4" 1000 psi (4068)
FV40072	FRP O-ring (28.5x3.55) for power connector 1000psi
FV40074	FRP Locking ring for power connector 1000psi -4039
FV40076	FRP Connector alim/conc(4038) vessel 4" 1000psi
FV40078	FRP Spacer blocking cap 4036 vessel 4" 1000psi
FV40080	FRP Aluminium collar 4036 for vessel 4" 1000psi
FV40082	FRP Aluminium Segment Cap Block 4" 1000psi - 4024
FV40084	FRP Permeate connector 4022 for vessel 4" 1000psi
FV40086	FRP T appo M12 for permeate connector 4013
FV40088	FRP Screw M6x10.3 for segment fixing
FV40090	FRP O-ring 25x2.65 for permeate connector
FV40092	FRP Stainless steel band for vessel 4" (4008.2)
FV40094	FRP Screw M6x25 for vessel plug fixing 4" 1000psi
FV800050	Saddle and tie rod kit for vessel VTR 8"
FV800054	FRP O-Ring per Vessel Ropv 190*5.3
FV800055	FRP O-Ring per Vessel Ropv 36.5*3.55
FV800058	FRP O-Ring per Vessel Ropv 47.5*3.55
FV800063	FRP O-Ring per Vessel Ropv 23.6*2.65
FV800071	FRP O-Ring per Vessel Ropv 58*2.65
FV800082	Permeate Plug A8006 1" NPT M for End & Side Version
FV800084	Permeate Union Adapter Kit 1" BS & Metric Style
FV800110	Thrust Ring A8011.2
FV800112	Thrust Ring A8011.4
FV800619	Thrust Ring A8011.1
FV800620	Thrust Ring side port 600-1000-1200 A8011.3
FV800010	8" diaphragm adapter type HYDRANAUTICS - 1.125"
FV800011	8" diaphragm adapter type BW3OLE440 - 1.5"
FV800618	Diaphragm adapter 8" type 1.125" SW A8012.3
FV800012	GE-type 8" diaphragm adapter - 1.187"
FV800014	Membrane adapter 8" blind type - 1.125"
FV8000E	Complete 8" ROPV 300 psi end port cap kit
FV80001S	Complete 8" ROPV 300 psi side port cap kit
FV8001E	Vessel cap kit 8" ROPV 450 psi end port complete
FV80002S	Vessel cap kit 8" ROPV 450 psi side port complete
FV8003E	Complete 8" ROPV 1000 psi end port cap kit
FV80004S	Complete 8" ROPV 1000 psi side port cap kit

# PLASTIC MEMBRANE VESSELS

## PLASTIC VESSEL

### FOR MEMBRANES 1812 150 PSI

SOLD IN PACKS OF 20

Code      Description

€

OI022000    Vessel plastic container for membrane 1812 150 PSI

### FOR MEMBRANES 3012

Code      Description

€

OI022002/2    Vessel container 150 PSI plastic for membrane 3012 ASpring

OI021830    Adapter Ø21 x Ø17 for 3" membrane shank

### FOR MEMBRANES 3208 & 3308

Code      Description

€

OI022005    Vessel plastic container Ametec 10" Blue 3/4 for membrane N/F N3208

## EXCHANGE RESINS

### PURESOFT STRONG CATIONIC

Code	Description	€
MF300060/cl	Strong cationic softening resin PURESOFT C107 FG	
MF300061/cl	Strong cationic softening resin PURESOFT PLUS C108 FG	
MF300030/cl	Strong cationic macroporous Na <sup>+</sup> resin	

### CARBOXYLIC RESIN

Code	Description	€
MF300035A/cl	PURESOFT TC115 carboxyl resin pack of 25 lt - 30% Na <sup>+</sup>	

### MIXED BED

Code	Description	€
MF300082/cl	Mixed bed resin MB 82 NVC MB-2 no colour change	

### SELECTIVE FOR NITRATES

Code	Description	€
MF300050/cl	Selective anionic resin for nitrate NO <sub>3</sub>	

### SELECTIVE FOR PFAS

Code	Description	€
MF300072/cl	Selective anion resin for nitrates NO <sub>3</sub>	

### LANXESS STRONG CATIONIC

Code	Description	€
MF300061	Lewatit S1567 strong cationic monosphere softening resin, in 25 l bags	

### DU PONT STRONG CATIONIC

Code	Description	€
MF300061	Strong cationic resin for add 25 lt bags HCRSSN	

### PUROLITE STRONG CATIONIC RESIN

Code	Description	€
MF300060/p	Strong cationic softening resin Purolite C100E	
MF300060/Ag	Strong cationic softening resin Purolite C100E Ag	
MF300059	Strong cationic softening resin Purolite SST-60 for Ca Mg Fe Mn	
MF300030/p	Purolite C150 macroporous resin	
MF300063	Colour-change cationic resin Purolite C100EVC	
MF300061/p	Purolite PFC100E strong cationic resin	

### STRONG CATIONIC RESIN FOR DEMINERALISATION

Code	Description	€
MF300060H+	Purolite C100MBH strong cationic resin	
MF300031/p	Purolite C150MBH macroporous strong cationic resin	

### CARBOXYLIC RESIN

Code	Description	€
MF300034/p	Cationic carboxylic resin Purolite C104 PLUS	
MF300035/P	Purolite carboxylic resin C107E/4752	

## MIXED-BED RESIN

Code	Description	€
MF300081	Purolite MB400IND colour-mixed bedding resin	
MF300082/p	Purolite MB400 mixed bed resin	

## WEAK ANIONIC RESIN FOR DEMINERALISATION

Code	Description	€
MF300041/p	Weak anionic resin Purolite A100	
MF300071/p	Weak macroporous anionic resin Purolite A103S	
MF300070/p	Weak macroporous anionic resin Purolite A103	

## STRONG ANIONIC RESIN FOR DEMINERALISATION

Code	Description	€
MF300040/P	Purolite A200 type II strong anionic resin	
MF300044/P	Purolite A200MBOH type II strong anionic resin	
MF300043/P	Purolite A500 Type I macroporous strong anionic resin	
MF300045/p	Putrolite A510 type II strong macroporous anionic resin	

## SELECTIVE RESINS

Code	Description	€
MF300033/p	Chelating resin for boron removal Purolite S108	
MF300036/p	Chelating resin for heavy metals Purolite S930 PLUS	
MF300050/P	Purolite A520E Nitrate Selective Resin	
MF300055	Selective arsenic resin Purolite Ferrix 33	

## SELECTIVE FOR PFAS

Code	Description	€
MF300072/P	PFA694E Resin for PFAS Removal	

## **FILTER MATERIALS**

### **FILTER MATERIALS**

<b>Code</b>	<b>Description</b>	<b>€</b>
MF300140	Anthracite for filtration with grain size 0.8x1.6 in 25 kg bags	
22950790	Micro-pearl quartz sand with a grain size of 0.4x0.8, in 25 kg bags	
22950797	Micro-pearl quartz sand with a grain size of 0.7x1.2, in 25 kg bags	
22950791	Micro-pearl quartz sand with 1x3 grain size, in 25 kg bags	
22950792	Micro-pearl quartz sand with 3x5 grain size, in 25 kg bags	
22950796	Quartzite with a grain size of 10x18, in 25 kg bags	
MF300130	Natural quartzite 3.15 x 5.6 DIN standard in 25 kg bags	
MF300011	Filter-Ag Plus, in 28 l bags	
22950795	Zelbrite, natural active filter, in 15 kg bags	

### **ABSORBENT MATERIALS**

<b>Code</b>	<b>Description</b>	<b>€</b>
MF300000	Vegetable granular activated carbon 8x30 mesh in 25 kg bags	
MF300002	Mineral granular activated carbon 8x30 mesh in 25 kg bags	
MF300001A	Activated carbon Carbosorb 12X40 NC1240 AG 25 kg bag	

### **CATALYST MATERIALS**

<b>Code</b>	<b>Description</b>	<b>€</b>
MF300010	BIRM catalytic iron removal material, in 28 l bags	
MF300015	Manganese dioxide (pyrolusite), in 25 kg bags	
MF300020	Greensand Plus manganese zeolite in 14-litre bags	

### **REMINERALISING MATERIALS**

<b>Code</b>	<b>Description</b>	<b>€</b>
MF300185	WATER - CALCIT calcined dolomite in ball form, in 25 kg bags	
MF300186	Hydrolite calcined dolomite WATER CALCIT M3G sc 25 kg

# **WATERLINE PRODUCTS FOR MEMBRANES**

## **ANTISCALANTS**

<b>Code</b>	<b>Description</b>	€
MF300304	AF 100 RO anti-scaling product, food certification, 25 kg can	
MF300314	Anti-scaling product for silica AF 750 25 kg can	

**16.0**

## **WATERLINE PRODUCTS FOR WATER TREATMENT**

<b>Code</b>	<b>Description</b>	€
MF300170	Potassium permanganate, in 25 kg buckets	
MF300318	Sanitizing bactericide Saniter LP 15 (indicated against Legionella Pneumophila), 25 kg can	
0502641	Anti-corrosive deoxygenating product for boilers Vaporsan 522, 25 kg can	
0502643	Anti-scaling dealkalizing product for Polival GV boilers, 25 kg can	
MF300100	Powdered polyphosphate for proportional dispensers, in 18 kg box	
MF300112W	Polyphosphate in medium transparent crystals, in a 25 kg box	
MF300113	Polyphosphate in medium transparent crystals, in a 1 kg box	
20300200	Water Ipoclor L, liquid sodium hypochlorite 13-16%, 30 kg can	
20300282	Water Polifos, liquid sodium polyphosphate, 25 kg can	
20300283	Water Polifos, liquid sodium polyphosphate, 10 kg can

## TECHNOLOGIES

*Our systems take advantage of the most advanced technologies to guarantee safety, respect for the environment and greater efficiency.*

### CONTACTLESS DISPENSING

*Our products feature Contactless technology. You can simply put your hand near the button without touching it and the dispensing system will start pouring the type of water you want!*

### PAYMENT SYSTEM CONFIGURATION

*«Vending line» products can be equipped with the best technologies in terms of payment systems.*

### ISOTECH PLUS TECHNOLOGY

*Isotech Plus is the innovative patented insulating material that allows a 30% increase in insulating capacity compared to polyurethane foam.*

- Fully recyclable;
  - Less heat loss;
  - Pollutants-free.
- Lab tests confirm that Isotech Plus technology makes our systems better performing and more eco-friendly.*

**DISPENSER****UNDER-SINK NATURIZZATORE****NATURIZZATA®****NEW****SW****Excellent water for everyone, advantages**

Eliminates up to 99.9% of bacteria present in the water.

Eliminates smell and taste of chlorine and sediment in the water.

**only included with:**  
**MCF-M001 MEDIUM**  
**MCF-M002 MAXI**

**Features**

- AISI304SB stainless steel housing.
- Carbon Block Filtration + UV lamp
- Anti-flooding probe.
- Liter counting with maintenance alert;
- the equipment can also be installed under the counter, as well as vertically and horizontally.

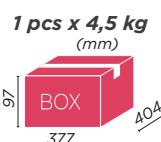

- Installation Kit Included.
- Tap included only for 5N001 MEDIUM and 5N002 MAXI.

Code	Description	Filter n.	€
MCF-M001	Under-sink dispenser complete with tap and installation kit.	Single filter 6 l/min

Cod. Optional	Description	Filter n.	€
ON18M00	ON 18 MEDIUM Ag NATURIZZATA®: filter 1 spare cartridge: Disposable cartridges with 0.5µm sintered Carbon Block technology	N.1 Monouso	

Supply: drinking water supply.

## WHAT NATURIZZATORE DO

- Removes unpleasant flavors and odors.
- It retains solid impurities.
- It reduces the bacterial load by up to 99,9%.
- It does not change the setup of water.
- It does not have storage tanks.
- It doesn't waste even a drop of water.

### The Benefits

- **ECONOMICAL SOLUTION:** save using tap water instead of expensive bottled water.
- **ECOLOGICAL SOLUTION:** no more plastic: reduction of CO<sub>2</sub> and cleaner seas.
- **BULK AND EFFORT:** disconnect from the system, be independent and stop buying of water.
- **VERY PURE WATER:** not just dal water good flavor but also pure, and safe.

The water treatment carried out by the Naturizzatore involves composite bed filtration (charcoal and filter) and a ray disinfection ultraviolet. This system removes the compounds from mains water that can give it a bad smell and taste (chlorine and its derivatives), therefore breaks down the bacterial load present in the water.

The exclusive disinfection system, patented by WATERLINE, guarantees extraordinary results. **The Naturizzatore is able to eliminate up to 99.9% of bacteria and viruses**, thus guaranteeing perfect bacteriological potability of the water supplied.

### OPTIONAL ON 18

MEDIUM Ag

NATURIZZATA®

Oceano Filter  
ON18 MEDIUM Ag  
n1 replacement cartridge  
page XX

Product compliant with DM25/2015  
DM174/04-NSF/ANSI 42-ACS e WRAS

- Disposable cartridges with special 0.5µm sintered Carbon Block technology.
- They remove turbidity (nominal filtration degree 0.5µm), chlorine, taste and odors from the water.
- The silver molecules present in the filter structure have a bacteriostatic action, the cartridges reduce organic substances and heavy metals.
- The Stem version has IN/OUT male connections with 10 mm tube. tubo 10 mm.

# UVSHIELD+

## STERILIZATION SYSTEM

BEVCO

NEW

**UVShield+**

**UVShield+** was created to meet the need for safety and hygiene without compromise.

Thanks to a UV LED sterilization system installed in the dispenser spout, it prevents any risk of back contamination, keeping every drop pure and safe.

The shape of the spout also prevents the user's container from getting close to the spout itself, eliminating the possibility of contact contamination.

### UVShield+

is available as an option for:

- Hielo Slim
- Hielo Slim Complete
- Hielo
- Hielo Alu
- New Venus Dry
- Petit Ice 50 3SP
- Mini Infinity Pro
- Infinity Pro
- Petite Ice 50 Office
- Easy Office

- NO CHANGE IN THE TASTE OF WATER.
- BACTERICIDAL ACTION LOCALIZED IN THE CRITICAL POINTS OF THE SYSTEM.
- HIGH EFFICIENCY AND VERY LOW POWER CONSUMPTION.
- NO HEATING OF THE TREATED WATER.
- 6-8 TIMES LONGER LIFE THAN TRADITIONAL MERCURY VAPOR LAMPS.
- IMMEDIATE SWITCHING ON.
- ENVIRONMENTAL COMPATIBILITY: ABSENCE OF TOXIC SUBSTANCES AND HEAVY METALS IN THE COMPONENTS.

ADVISED Page 418

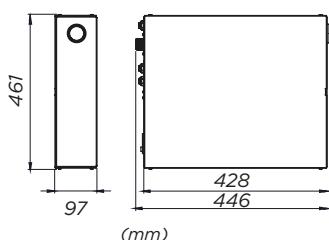

Naturizzatore Cod MCF-M003

**Features**

- It supplies the end user with room temperature carbonated water and filtered natural water.
- MICRO GAS is equipped with an OCEAN filtration stage (ON16) that removes odours and flavours and retains all water impurities.
- The enclosure is made of AISI304SB stainless steel and has very compact dimensions. The appliance can also be installed under the counter, vertically and horizontally.

- It is equipped with a pressure gauge to display the working pressure of the pump.
- Weight: 7 kg
- Power supply: drinking water network
- Supply voltage: 220/240 V - 50 Hz
- Absorption: 1A
- White metal casing and white plastic front panel
- Drip tray and support grid in aisi 304

## MINI OSMOGAS FRESH DRY UNDER UNDER-SKIN DISPENSER

**BEVCO**

Integrated membrane

**18 l/h**

Under counter dispenser  
only 17 cm wide

**SW**

**ADVISED** Page 418

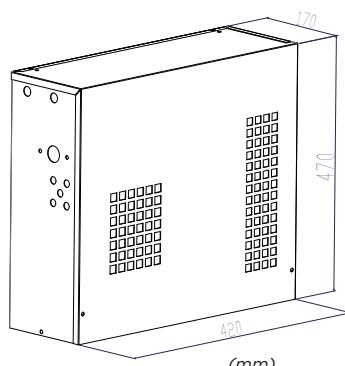

### Features

- Under counter dispenser with filtration system that uses a direct reverse osmosis technology, providing osmotic water at room temperature, cold still water and cold sparkling water
- The small dimensions allow for this system to be placed also where space is constrained

- Dry cooling system with aluminum block
- White external housing
- The use of a 400 gallon membrane guarantees a high production of osmotic water

O/021991	<b>Chrome-plated single handle mixer 3 ways tap made in Italy, only for treated water</b>	
O/021988	<b>Chrome-plated 3 way electric faucet in goose neck made in Italy</b>	
O/021990CA	<b>Chrome-plated 3 way mixer with curved spout CA</b>	 <p>3 Way faucet completely polished chrome or satinized, with a high and curved spout structure. The modern but extremely elegant design makes it versatile and perfect for all environments and kitchens. Particularly appreciated for its soft and decisive lines, it is ideal for large and deep washbasins.</p>
O/021990CAS	<b>3 way satin mixer with curved spout-satin CA</b>	 <p>3-way satin version, truly functional and versatile. The particular workmanship means that it also pairs perfectly with kitchens with a less modern style. The tall and curved swan body is especially appreciated in the case of large and deep sinks; the solid structure is designed and tested to maintain excellent performance over time.</p>
O/021990	<b>3-way chrome-plated mixer with high barrel made in Italy Hot/cold and treated</b>	

## MIXER ADDITIONAL

Codice/ Code    Descrizione/ Description

OI021981CA

Chrome-plated 3-way mixer with extractable hand shower with black silicone hose CA

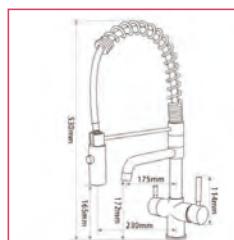

3-way tap with exclusive double swan: one rigid for purified water and one with extractable hand shower in food-grade black rubber for the two mains water. Ideal for kitchens with a large bucket or double basin, perfect for modern environments and for inserting a design element into your living area.

OI021982CA

Chrome-plated 3-way mixer with extractable hand shower CA

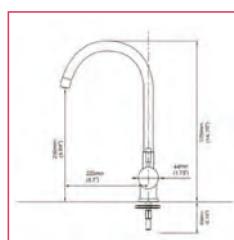

5 Way double swan faucet, one of which is rigid for treated water and one with removable shower head in flexible metal mesh for the two mains water. With it you can have various types of treated water without going to overturn the top of your kitchen

CAR4329-SK

3-way satin mixer with foldable curved spout CA

Particular 3-way model with completely foldable and 360° rotatable structure. The elegant and modern design makes it perfect for kitchens of all types, in particular for environments where it is necessary to reduce the neck to make the most of the space. Thanks to the mechanism for selecting the water available via a single lever between treated and mains water.

**NEW**

CAR4101-P

3-way satin mixer with foldable curved spout CA

Modern and elegant 3-way tap, particularly appreciated for its design and performance.

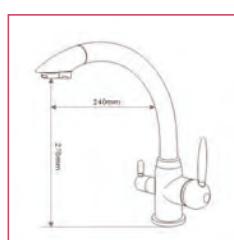

Consisting of 2 levers of different sizes, it can comfortably dispense 3 types of water, 3-way taps like this one perfectly camouflage their dual purpose: to take cold and hot water from the network and deliver treated water directly from the system.

**NEW**

CAR4104-P

3 way satin mixer with curved spout-satin CA

3-way satin version, truly functional and versatile.

The particular workmanship means that it also pairs perfectly with kitchens with a less modern style.

The half-curved body is appreciated both in normal and large sinks. The solid structure is designed and tested to maintain excellent performance over time.

19.0

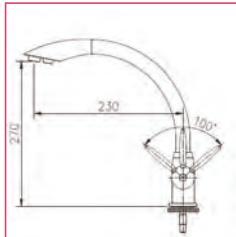

Dispenser for domestic and professional use. Accessories

**MIXER ADDITIONAL**

Code	Description
------	-------------

CAR4204-P

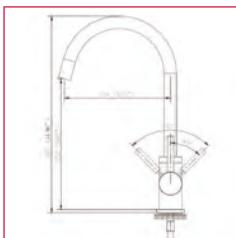

**3 way satin mixer with curved spout-satin CA**

*3-way satin version, truly functional and versatile.*

*The particular workmanship means that it also pairs perfectly with kitchens with a less modern style. The half-curved body is appreciated both in normal and large sinks. The solid structure is designed and tested to maintain excellent performance over time.*

OI021983CA

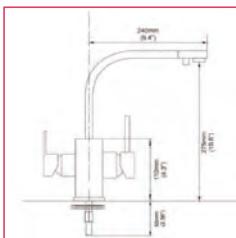

**Chrome-plated 4-way mixer with straight spout CA**

*Modern and very elegant design for this 4-way tap model. The lines and its structure give character to any kitchen, carefully finished with rounded profiles, it dispenses mains water and the 2 treated waters available in total safety.*

*Being equipped with a particular PU plastic tube, it dispenses carbonated water in total safety.*

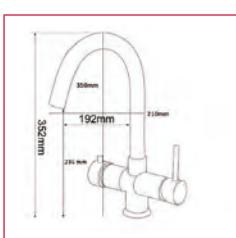

CAR4109-SK/4

**Chrome-plated 4-way mixer with flat spout CA**

*New version of 4-way mixer with flat and curved rectangular swan structure. Thanks to its refined design, it is perfect for modern kitchens that want to make the most of every accessory. Thanks to the dispensing technology for 4 types of water, you can easily obtain: hot or cold mains water, treated water and carbonated water directly from the purification system.*

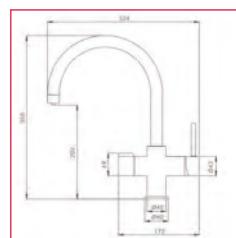

OI021994CA

**Chrome-plated 5 way mixer with curved spout CA**

*Modern 5 way with a really perfect design for any environment, it dispenses Hot and Cold mains water, ambient or cold treated water & Sparkling water. The exclusive click mechanism allows you to have the type of treated water you prefer by using a single lever. For the dispensing of sparkling water, the tube inside the swan is made of PU plastic.*

OI021994CAS

**5 way satin mixer with curved spout CA**

*Practical and at the same time modern 5-way tap for its curved and precise lines, it has two valves of different sizes for dispensing different waters. Adaptable to different environments including the most classic and basic ones, giving something extra to the context.*

## MIXER ADDITIONAL

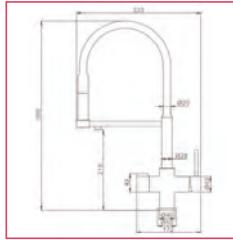

**Code**      **Description**

---

O/021994      **Chrome-plated 5 ways tap with high spout Made in Italy**

O/021984CA      **5-way polished chrome mixer with extractable metal mesh hand shower CA**

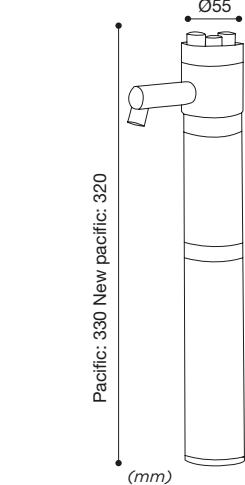

*Detail 3 way model with structure that can be completely overturned and rotated by 306 °. The elegant and modern design makes it perfect for kitchens of all types, especially for environments where it is necessary to pull down the neck to make the most of the space. Thanks to the mechanism for selecting the available water through a single lever between treated and mains water.*

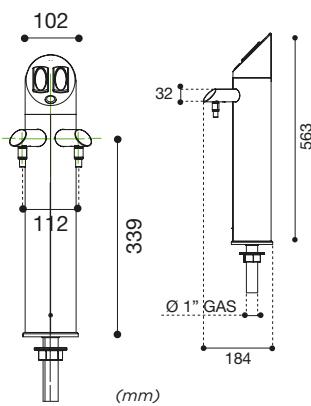

19.0

Dispenser for domestic and professional use. Accessories

**Features**

- Font dispensing room temperature, cold and sparkling water
- Mechanical functioning
- Chrome-plated brass

Code	Description Tower	Tap	Dispensing points	Lines	Thread size	Connections
			n°	n°		ø mm
PCF1036	Chrome-plated brass	-	1	3	-	8

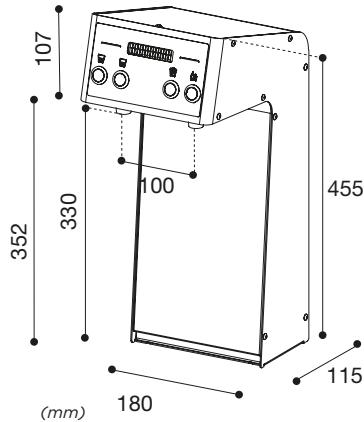

**ATLANTIC****Features**

- Font dispensing room temperature, cold and sparkling water
- Dispensing system with volume dosage: 2 volumes (glass/bottle) for cold still and sparkling water
- Electrical functioning
- Flow meter + electric valve
- Connectable to any mechanic under counter cooling system and to any filtration system
- Polished stainless steels

Code	Description Tower	Tap	Dispensing points	Lines	Thread size	Connections
			n°	n°		ø mm

## CO<sub>2</sub> TANKS FOR DOMESTIC AND PROFESSIONAL USE

**Residual valve included from 1Kg upwards.**

**W 21.8-14 Thread.**

**ACME 2G connection for 425 gr cylinders**

### Features

- Aluminum cylinders for food-grade CO<sub>2</sub>
- Steel cylinders for food-grade CO<sub>2</sub> E290
- TPed TUV certified, and E290 food-grade CO<sub>2</sub> can be supplied upon request.

**NEW**

Code	Description COMPLETE STEEL cylinders	Charge CO <sub>2</sub>	Diameter (mm)	Total H (mm)
890083	2 Kg STEEL CO <sub>2</sub> cylinder with residual valve - complete with CO <sub>2</sub>	2 Kg	103,5	540
890084	4 Kg STEEL CO <sub>2</sub> cylinder with residual valve - complete with CO <sub>2</sub>	4 Kg	136	630
